

MAHAMMED SAWAD

Email: mohammadsawad101@gmail.com

Mobile: +966558764691

Profile Summary

Civil Engineer with hands-on experience in commercial and residential building projects, specializing in site execution, QA/QC coordination, project documentation, and construction supervision. Skilled in reviewing drawings, monitoring site activities, preparing RFIs and technical reports, and ensuring compliance with project specifications and safety standards. Proficient in AutoCAD, Primavera P6, MS Excel, and MS Office with strong abilities in project coordination, problem-solving, and team collaboration. A quick learner with excellent communication and organizational skills, committed to delivering projects efficiently within quality, safety, and schedule requirements.

Employment History

Company	:	Al Beri Al Mutahid General Contracting Est
Position	:	Civil Engineer
Project	:	Commercial & Residential Building
Duration	:	August 2024 - April 2026

Duties and Responsibilities

- Planned, designed, and supervised civil engineering projects including building structures, foundations, and infrastructure works.
- Reviewed and interpreted IFC drawings, project specifications, and engineering standards to ensure accurate execution.
- Prepared and submitted RFIs, method statements, and technical documents for client approval.
- Conducted site inspections to monitor quality, progress, and compliance with project specifications.
- Supervised execution of civil works including excavation, backfilling, compaction, concreting, masonry, plastering, and finishing works.
- Inspected formwork, reinforcement, embedded items, and equipment foundations prior to concrete placement.
- Monitored concrete batching, pouring, compaction, curing, and conducted field testing (slump test, air content, and temperature checks).
- Verified construction materials to ensure compliance with project specifications and QA/QC standards.
- Prepared and maintained site documentation including NCRs, SSRs, test reports, and quality records.
- Coordinated with contractors, subcontractors, consultants, and vendors to ensure smooth project execution.
- Ensured on-site safety compliance and adherence to HSE regulations.
- Assisted in preparation of Inspection Test Plans (ITPs), risk assessments, and job safety analyses.
- Conducted surveys, layout verification, and level checks in coordination with surveyors.
- Inspected structural steel fabrication, pre-engineered building (PEB) erection, and equipment foundation installations.
- Tracked project schedule, resource allocation, and manpower productivity to ensure timely completion.
- Attended client, consultant, and internal meetings to report progress and resolve technical issues.
- Identified quality deviations and implemented corrective actions to prevent rework.

- Maintained strong communication with stakeholders to secure timely approvals and clarifications.
- Assisted in material planning, cost control, and resource optimization to minimize delays and wastage.
- Conducted internal audits and quality checks to ensure compliance with the Project Quality Plan (PQP).
- Monitored subcontractor performance and ensured work met quality and timeline expectations.
- Verified installation of utilities and services within civil works per project specifications.
- Provided technical guidance to junior engineers and site staff to maintain quality and efficiency.
- Maintained proper documentation for inspections, approvals, and audits.
- Supported senior engineers in project coordination, technical problem-solving, and reporting.
- Ensured completion of civil works within budget, timeline, and quality standards.

Technical Skills

- AutoCAD
- Primavera P6
- MS Word, Word, PowerPoint
