ABOUT ME

I'm a recent Metallurgy and Materials Engineering graduate from Bahauddin Zakariya University, Multan with hands-on experience in material testing and analysis. I'm eager to apply my academic knowledge and skills in real-world settings, focusing on interests such as NDT and corrosion. Passionate about continuous learning and innovation, I'm excited to start my career and contribute to impactful engineering projects.

PROJECTS

- 1) Synthesis of V2O5/ SNO2 hybrid nano composite through hydrothermal process for degradation of environmental pollutants through photocatalytic activity
- 2) Attended Seminar on "Industrial Practices in Inspection, Testing and Certification (IAM BZU, Multan)
- 3) INTERNSHIP IN SGS LAHORE

EXTRACURRICULAR

NATIONAL PROSPERITY INITIATIVE SOCIETY,
BZU, MULTAN March
2022 -2024.
As a Member of society, Supervised a team of 6
volunteers.
