RE: Applied for the post of **Quality Assurance /Quality Control** with an esteemed organization.

Please accept this letter as an expression of my interest in the Inspection Engineer position. I am a highly motivated and progress-focused service/shutdown Inspector with a long-standing background in this industry. With a track record of initiative and dependability, I have devised strategic initiatives which I believe will prove valuable to the company.

Throughout the course of my career, I have perfected my project oversight and safety awareness abilities. I am a capable and consistent problem-solver skilled at prioritizing and managing projects with proficiency. In my previous role, I contributed leadership, problem-solving, and schedule management toward team efforts and business improvements. I am progressive minded and in tune with new developments in my field. I have proven to be effective and collaborative with strong time-management talents. I enjoy collective brainstorming sessions which all me to coordinate activities to achieve a common goal.

In my previous role, I contributed leadership, problem-solving, and schedule management toward team efforts and business improvements. I am progressive minded and in tune with new developments in my field. I have proven to be effective and collaborative with strong time-management talents. I enjoy collective brainstorming sessions which all me to coordinate activities to achieve a common goal.

Please take a moment to review my attached resume and credentials. I would greatly appreciate the opportunity to speak with you regarding my candidacy. Thank you for your consideration.

Sincerely,

SHUBHAM PATIL

Shubham Ravindra Patil

ASNT Level III (UT, PT, MT, RT) ID #385899, API 570 # 98182 & API 510 # 104157 certified professional targeting to express potential in NDT Inspection/ Quality Assurance /Quality Control with an esteemed organization.

PROFILE SUMMARY

- A multifaceted professional offering nearly 11 years of unmatched track-record in managing **Quality Assurance, NDT, Inspection & Testing** across the **Power Utilities, Petrochemical, and Oil & Gas sectors**
- Skilled in carrying out various tests and inspections for various processes and checking the quality standards; exhibited excellence in steering API Inspections, QA/QC, CNDT & ANDT activities
- Proficient in executing inspection duties utilizing engineering drawings and orders, route cards, inspection travelers' technical specifications, QA procedures and instructions and other related documents
- Proven success in documenting information like NDT reports, Calibration reports, Inspection reports, Dimensional Inspection reports, NCRs (Non-conformance Reports), personnel qualification records, production reports and departmental metrics
- Led effective quality control and associated risk management plans/reports - Risk Analysis
- Developed, evaluated, and improved manufacturing methods; modified processes to improve safety and product quality, and reduced costs
- Worked with R&D to invent new possibilities for inspection of difficult NDT activities
- Coordinated and supported on-site audits conducted by external providers; evaluated audit findings and implemented appropriate corrective actions

EDUCATION

- 2014 : Bachelor's in mechanical engineering, Pune University, India

CAREER TIMELINE

SOFT SKILLS

Leadership

Interpersonal

Problem-Solving

Quick-Learner

Adaptive

Analytical

CORE COMPETENCIES

CNDT / ANDT Inspection

Quality Management (Control & Assurance)

Resource Management

Total Quality Management (TQM)

Audits & Compliances

API 570 /510 Inspection

NDT Training & Certification

Project Management

Resolving technical issues at Site

CERTIFICATIONS

- ASNT Level III (RT, UT, MT, PT) ID #385899
- API 570 Certification # 98182
- API 510 Certification # 104157
- NDT Level II in SATURATION ECT/LFET/IRIS/RFET by TESTEX TX-4400 of M/s TESTEX NDT PVT LTD
- Silver wing Certified Training in RMS-300, 450 by M/s SAUDI KKEM.
- Silver wing Certified Level II Training in MFL Using Floor map 3Di, VS2i from M/s SAUDI KKEM
- Acoustic Pulse Reflectometry (APR) - LEVEL II
- SRUT Certified (Equipment: AUT Solution, Pro-scan) - LEVEL II

IT SKILLS / Others:

- MS Office
- IELTS Score: Band 7
- PRO E
- Auto CAD designing

WORK EXPERIENCE

Since Jan' 19

Saudi K-KEM Engineering Service Company, Saudi Arabia, as CNDT Supervisor /NDT Level-III

Roles & Responsibilities:

- Supervising all regular & shutdown CNDT activities (Major SABIC affiliates included, PK North, PK South, PK West, IBN Sina, IBN Zahr, SAMAC, Kemya, SHARQ, United, Saudi Kayan, Sab Tank, GAS along with Maaden Aluminum & Phosphate, S-Chem, Solvay, Chemanol, ACC, JANA, JESCO, various sites for SAUDI ARAMCO in KSA)
- Delivering NDT classroom training to all new NDT personnel in office
- Administering all (NDT) Training activities for NDT personnel as per written practice
- Establishing all training & certification records as per standards
- Monitoring every regular project site to verify all technicians & site supervisors are following proper procedures
- Acting as API inspector for short term / on call activities for RCPC, Solvay, JESCO, ACC, JANA, PK, SHARQ, Maaden
- Conducting on call NDT activities personally during shortage of manpower (e.g. PMI, SWUT, Spark Test, Visual inspection, Hydro test Witness)
- Resolving technical issues (NDT) from sites to fulfill client requirements
- Managing EHSS requirements (Documentation)
- Establishing QA/QC system for welding of structural and piping including required Destructive/Non-destructive tests
- Undertaking inspection of raw materials, finished products & welding processes and detailed dimensional inspection of component parts, verifying control identification and traceability mark of product
- Conducting internal & external audits and site inspections, including witnessing, recording and reporting results
- Maintaining quality standards for incoming/outgoing materials and ensuring stringent adherence to quality standards, norms & practices
- Executing vendor quality surveillance activities to verify that vendor furnished material conforms to the technical & quality requirements of the organization
- Preparing quality documentation and reports by collecting, analyzing and summarizing information and trends including failed processes, stability studies, recalls, corrective actions, and re-validations
- Participating in any root causes analyses of defects, process improvement initiatives or other tasks teams in support of company objectives
- Maintaining department documentation such as UT/PT/ET reports, Calibration reports, Visual Inspection reports, Dimensional Inspection reports, NCRs (Non-conformance Reports), personnel qualification records, production reports and departmental metrics
- Performing inspection as defined by the work instructions and any other instructions for the job assigned
- Providing a detailed quality inspection of products using tools such as scales, micrometers, calipers and gages

Jan'18 – Dec'18

M/s. Santo Engineering Pvt Ltd, Gujarat, India, as Quality Engineer

Roles & Responsibilities:

- Assist in the development, and execute inspection requirements/criteria, and quality process
- Review of inspection plans and implement changes and ensure high efficiency for inspection plans according to project requirements
- Review WPS and PQR and involved in inspection for fit up and various fabrication stages
- Working with the planning department to ensure proper inspection will be carried out during various fabrication stages
- Preparing reports of test results, evaluation of discontinuity and involved in eliminating defects with planning and production
- Involved in preparation of Dossier report for final fabricated vessel/equipment
- Key active player in conducting Audit and conforming to work with all standards and rules and regulations
- Involved in training for ISO 9001:2015 as internal lead auditor

Jan'15 – Jan'18

M/s. TESTEX NDT INDIA Pvt Ltd, Mumbai, India, as ANDT Engineer

Roles & Responsibilities:

- Witnessing and carried out of different Non-destructive testing of various structural project piping, cross country piping, storage petroleum tank, pressure vessel, heat exchanger, hydrogen, nitrogen & ammonia bullet/tanks and boiler piping etc. in accordance with requirements
- Conducting test to determine corrosion resistance, strength and stability with respect to stress and temperature variation
- Performed PMI for material confirmation check, conducting vacuum box test for weld joints
- Inspecting tube condition by performing various ANDT methods and performed thermography to check hot spots and cold spots for critical equipment's
- Involved in inspection activities during shutdown and regular maintenance in various petrochemical, chemical and storage facilities
- Preparing reports of test results, evaluation of discontinuity and recommending repair scope

PERSONAL DETAILS

Date of Birth:	16 th September 1991
Languages:	English, Hindi, Gujarati, Marathi, Learner in Arabic
Address:	Ankleshwar, Gujarat, India- 393001
Passport No.:	Z3815998
Nationality:	Indian
Marital Status:	Married
No. of Dependents:	02
Driving License:	India driving License Saudi Arabia Driving License

Responsibilities handled as LEVEL-III:

- Planning and preparing procedure for RT, UT, MT, PT for components and products as per the standards codes and specification.
- Planning and coordinating the inspection and NDT activities inside of the plant and outsourced works
- Review of NDT procedures and NDT technicians' qualifications
- Interpret/Review NDT reports and maintain all related files and records
- Witnessing and carried out of different nondestructive testing of various structural project piping, cross country piping, storage petroleum tank, pressure vessel, heat exchanger, hydrogen, nitrogen & ammonia bullet/tanks and boiler piping etc. in accordance with ASME, ASTM, API, AWS & EN specification etc.
- Documents of test results, evaluation of discontinuity and controlling the rejection level

Responsibilities handled as API Inspector (API 570/API 510):

- Carrying out external / internal inspection of pressure Vessels, Heat exchangers, Columns, Piping systems
- Selection of repair techniques, materials, welding procedures, inspection & testing requirements
- Selection of appropriate inspection / NDT techniques as per codes/standards & specification. Supervision and coordination of all on- stream and shutdown inspection/NDT activities
- CUI inspection of exchangers, reformers and piping systems
- Witnessing and approval of PSV installation & Hydro test
- Preparation of final report with observation and recommendation
- Monitoring and follow up of inspection recommendations with execution team
- Coordinating inspection activities with NDT team with tube inspection
- Review of punch points as per client recommendations
- Ensure the flange joints integrity with proper gaskets and torquing as per approved data
- Maintain all controlled document files and test records in a timely and accurate Manner
- Reviewing the approved quality control plans, project specifications, procedures, scope of work, WPS & PQR to perform the required inspection
- Witnessing Procedure Qualification Tests and Review PQR Record according to Code Requirements
- Witnessing Welder Performance Qualification Test as per ASME section IX (CS, AS & SS)
- Checking Welding Consumables, Welder Qualification, Preheat and Inter-pass temperature and other Essential welding parameters as per WPS
- Appraise product quality in accordance with the Project Quality plan, ITP and determine conformity and non-conformity
- Ensure that material/welding consumables are stored and handled correctly, when required material traceability is maintained and correct material used
- Pipe joint fit-up and dimensional checking as per latest isometric drawing and relevant WPS
- Walkthrough and QC Punch listing prior to hydro test
- Visual Inspection of finished weld joints

Responsibilities handled as QC Engineer:

- Pipe and vessel joints fit-up and dimensional checking as per latest isometric drawing and relevant engineering drawings
- Reviewing the approved quality control plans, project specifications, procedures, scope of work, WPS & PQR to perform the required inspection
- Witnessing Procedure Qualification Tests and Review PQR Record according to Code Requirements
- Checking Welding Consumables, Welder Qualification, Preheat and Inter-pass temperature and other Essential welding parameters as per WPS
- Proven success in documenting information like NDT reports, Calibration reports, Inspection reports, NCRs (Non-conformance Reports), personnel qualification records, production reports and departmental metrics

Annexure

Equipment Handled:

- **Tube/Tank floor Inspection (ECT, SECT, RFET, LFET)**
TESTEX: 4400
- **Tube Inspection (ECT, MFL, IRIS)**
Olympus: MS 5800
- **MFL (Tank floor)**
TESTEX: LFET for Tank floor
Silver wing: VS2i : 3DiM
- **Acoustic Eye Testing**
Acoustic Eye Dolphin G3
- **LRUT / Guided Wave Ultrasonic Testing**
MK-4 GUL GF-309 Wavemaker G4
- **SRUT / Short Rang Ultrasonic Testing**
AUT Solutions: AUT Pro Scan XT
- **RMS (Rapid Motion Scanner) for Cross country Pipeline, Vessel, Tanks**
RMS 450 and RMS 300
- **Ultrasonic Testing**
GE: USM-35 & USM-GO, DMS Go+
Olympus : 45MG, 38DL+
Modsonic: Einstein II TFT
Cygnus: Model 4+
- **PMI**
Venta , Spector
- **Hardness Testing**
DMQ: QH5 D, QH7 C
- **Gamma (RT)**
DELTA-880, ROLI-1, AMERTEST-660, TELETRON, GAMMA RID, SPEC-300 (Co60).

Project Handled in KSA:

- In-service Inspector at SHARQ (Sabic), Jubail KSA from (Jan 2021 to August 2021)
- In-service Inspector at Maaden Phosphate, Turaif KSA from (Sep 2021 to Dec 2021)
- In-service Inspector at PETROKEMYA North (Sabic), Jubail KSA from (Jan 2022 to May 2022)
- In-service/shutdown Inspector at Solvay, Jubail KSA from (June 2022 to Jan 2023)
- In-service Inspector at SHARQ (Sabic), Jubail KSA from (Feb 2023 to Nov 2023)
- Performed inspection by advance NDT and conventional NDT (using various NDT techniques according to requirement) for storage tanks above ground, heat exchangers, Pipelines at SAUDI ARAMCO, SCHEM, PETROKEMYA, UNITED, SHARQ, KEMYA, YANSAB, IBN-SINA, SAMAC, GAS, SOLVAY, SIPCHEM, JANA Chemicals, ACC and FARABI PETROCHEMICALS.

Project Handled in INDIA:

- Performed inspection for aboveground/underground Storage Tanks, Boiler, Pipeline corridor, Heat Exchanger, Pressure vessel in shutdowns at BPCL, IOCL, HPCL, RIL, CPCL, GNFC, BASF, TATA POWER, RIL POWER, NTPC, TATA CHEMICALS, MCF, IMC, IOCL, MCF, DAIKEN, JCI and GEECY.

Project Handled in MALAYSIA:

- Performed inspection for Boiler, storage Tanks in shutdowns at MALAKOFF POWER, JOHAR BAHRU.

Reference:

- Yogesh Jadhav (NDT Manager L&T Hydrocarbon, KSA +966565278863)
- Dinesh Kulat (Estimation Manager Sulzer Chemtech Middle East, KSA +966593333150)
