

ZEESHAN SHOUKAT

Materials & Process Engineer

+92 3493879780 @ ZeeshanShoukat583@gmail.com <https://www.linkedin.com/in/zeeshan-shoukat-91a21023b>
House # E-298 Sultanabad M. T Khan Road Karachi, Pakistan

EDUCATION

Bachelors of Engineering in Materials & Process Engineering (Faculty of Chemical Engineering)

NED University of Engineering and Technology

10/2019 - 10/2023 Karachi, Pakistan

CGPA

3.14 / 4.0

HSSC - Pre Engineering

Army Public College Faisal, Karachi

08/2017 - 08/2019 Karachi, Pakistan

Matric Science, Computer Science

F. G Public High School, Karachi Cantt

08/2015 - 08/2017 Karachi, Pakistan

COURSES & CERTIFICATIONS

Postgraduate Certified Quality Assurance Professional

PIQC Institute of Quality (NEDUET)

18/july - 29 /Oct/24

Supply Chain & Warehouse Management 3 days Training

Loads Limited

November - 2024

Corrosion Science & Engineering

Coursera Platform (Online)

july/2023 - Aug/2023

Three - Days Training in Materials Testing Lab, Material Characterization Lab at Materials Engg Department of NEDUET

Completed Three Days Training in MTL & MCL at Materials Engineering Department of NEDUET.

February - 2020

EXPERIENCE

Trainee Engineer - QA/QC (Through Pakistan Engineering Council)

Loads limited

26/Feb - 26/Aug/2024 Port, Qasim Karachi

Completed Six Months Trainee Engineer QA/QC Program at Loads Limited. A Manufacturer of Mufflers, and Body Parts for Honda, Pak Suzuki, and Toyota.

- Comprehended the Body Parts Manufacturing Process for Automotive Brands via Press metal forming & portable spot welding.
- Performed in-Process Quality checks and final inspections within the Pre Department.
- Good Understanding of Automotive Materials e.g Japanese Standard.
- Collaborated with the QAD Team to resolve quality issues through NCR, Root Cause Analysis (RCA) & PFMEA.
- Experienced in conducting Rockwell Hardness Test, Coating Thickness Test & Tensile tests using Tensile Test Machine to ensure product quality.

SKILLS

Microsoft Excel & Word

Creo Parametric (CAD)

Problem Solving Skills

INTERN EXPERIENCE

Intern - Process Engineer

Printech Packages

10/Jan - 26/Feb/2024 SITE, Karachi

A Producer of Packaging Films.

- Demonstrated understanding of Jingming Chinese Three, Two Layer, and Mono Layer blown film Extrusion
- Skills:** QA, Problem solving, Polymers

Intern - Engineer (QA/QC)

Karachi Shipyard & Engineering Works Limited

Sep/2022 - Oct-2022 Karachi, Pakistan

Successfully Completed an extensive six-week internship at Foundry, Material Testing Lab, and QC/QA Department.

- Skills:** Non-Destructive Testing, RT, UT, Foundry, Quality, Teamwork, Problem Solving, Metallurgy.

Intern - Engineer (CAD, HTM)

Karachi Tool Dies & Mould Center

April/22-April/2022 Korangi, Karachi

Finished a two-week internship in the Heat Treatment & CAD Department at KTDMC.

- Skills:** Creo Parametric, Heat Treatment, CAD, Nitriding, Report Writing, Problem solving

Intern - Engineer (QAD)

Peoples Steel Mills Ltd

March/22-March/202 Karath, India

Obtained insights into non-integrated steelmaking through a two-week internship at PSM.

- Skills:** Steel Making, Testing, Forging, Rolling, EAF, NDT, Leadership, Quality, Planning, Metallurgy.

PROJECTS

CQAP: Investigate a recurring quality issue using RCA techniques to identify the causes. Develop and implement CAPA to prevent future occurrences

July/2024-Oct/2024 Port, Qasim - Karachi

FYDP : Synthesis & Characterization of 58S Mesoporous Bioactive Glass Particles & Coated on Mg Alloy Sheet by Electrophoretic Deposition

08/2022 - 08/2023 NEDUET, Karachi

- Develop MBG via Sol-Gel method using TEOS, TEP, calcium nitrate, as a precursor and add Pluronic P123 as a surfactant.
- Magnesium alloy sheets were coated with MBGs using Electrophoretic deposition for the project.
