Profile

(QA/QC Mechanical, Welding, Piping, Pipeline, Tanks, Equipment, Steel structure & Material, inspection) Engineer, having more than **23 years** of Practical experience in the oil and gas field. I worked and Managed all QC and inspection activities in the Construction of many oil and gas **Offshore & Onshore** Projects, many shutdowns and Well heads facilities fabrication and erection.

Certifications

Academic Certificate:

- B. Sc. Metallurgy, Suez Canal University, Faculty of Petroleum and Mining Engineering.

Welding & NDT Certificates:

- Cswip3.1 Welding Inspector TWI, UK –Certificate No (350123/3)
- ASNT NDT Level II (RT, UT, PT, MT)

HSE Certificate:

- OSHA General Industry Occupational safety and Health Administration
- Various safety course training (Firefighting, PTW, work in height, first aid)
- Protection against Ionizing Rays Certificate – issued from Alazhar University, Cairo
- Accident investigation course
- Behavior Based Safety -BBS

Others:

- STRP-168: Performance Management and Evaluation (The American University in Cairo)
- Emotional Intelligence (Oil and Gas Skills – OGS, Cairo)

Work History:

JOB Title : QA/QC Department Manager

Project : MELEIHA PHASE II DEVELOPMENT- **Eni**

HIRE DATE : April 2024 up to date

Company : PETROJET

Location : Western Desert, Egypt

Project Description: EPC Project includes construction of Gas plant, 90 km Gathering pipeline system with different Diameters 6, 8, 10, 12, 14 inches and Construction of 24"/120km Export pipeline.

Duties & Responsibilities:

- Preparing and witness WPS, PQR, W.Q.T, P.W.H.T, hydrostatic testing and all Inspection testing (Destructive) and (Nondestructive) according to the applicable codes like ASME, AWS, and API.
- Preparing and review the quality control documents like ITP and Inspection forms, etc.
- Preparing and applying long and short-term inspection Plans.
- Applying and supervising shop and field inspection like (VT, RT films interpretation, PT, MT, UT, Hardness test, PMI, etc.), including review of preliminary interpretations carried out by subordinates.
- Assist and make sure that welding and all related activities adhered to the project HSE Procedures.
- Apply and witness Inspection on various Welding Consumables (Electrodes, Special Drying for Electrodes, Filler Wires Fluxes, Shielding and Backing Gases) according to ASME II Sec. C or other various standards.
- Manage and coordination between QA/QC Crews in Project.
- Contract Technical review to verify Project Technical requirements for Welding Activities.
- Review project feed proposals and design documents regarding material selection and mechanical integrity, method of statements etc. during project execution.
- Make sure that all materials used comply with the approved Material Request.
- Confirm that all personnel in the project are using the latest edition of the approved shop drawings, QCP and ITP as per the project master index.
- Review all the welding activities as preheat, PWHT, interpass temperature, repair, of various material types of the project such as Carbon steel, Stainless steel, Duplex Stainless Steel, etc.
- Make and review the relevant As-Built drawings and make sure that all site conditions are properly addressed.
- Supporting repair techniques, materials selection, welding procedures, inspection and testing requirements.
- Implementation & follow up of project quality specification & plan.
- Prepare, review and endorse inspection reports to ensure they comply with the relevant standards. Apply appropriate remedial action for any non-compliance and ensure that inspection percent and frequencies Are fulfilled according to used codes or specs.
- Analyze results obtained from associated failure investigations/significant anomalies.
- Issue and Follow-up Clearing of Non-Conformance Reports.
- Issue and follow-up Clearing of Punch list in the pre-commissioning stage.
- Apply and Supervise Pressure Test for All Installation Systems according to the applied codes or client specs.
- Follow up and manage all shutdown inspection activities for piping and stationary equipment.
- Supervise and Follow-up all **Equipment (Rotary& Static)** QA/QC erection and inspection works up to start up.
- Preparing the final project hand over documents.

Job Title : QA/QC Department Manager
Project : Coker Complex Rehabilitation Project -Suez, Egypt
Client : SOPC (Suez Oil Processing Company)
Employer : PETROJET
Duration : May 2022 to Mars.2024
Location : Suez, Egypt

Project Description: construction of Coker Complex plant (1.4 billion \$), (1.5M Diam. Inches of piping works, Equipment installation and 20k ton steel structure erection works).

Job Title : QA/QC Department Manager
Project : Ras-Ghareb New Crude oil Tank Farm
Client : EGPC (Egyptian General Petroleum Corporation)
Employer : PETROJET
Duration : Mars, 2021 to May 2022
Location : Ras-Ghareb, Egypt

Project Description: construction of oil storage tank farm including (6 storage tanks with Capacity 175k sq.m/tank, 3 utility tanks, the related piping network, Equipment installation in addition to construction of 16"/20km pipeline)

Job Title : QA/QC Department Manager
Project : Ras-Shukair Crude oil Tank Farm
Client : **EGPC** (Egyptian General Petroleum Corporation)
Employer : PETROJET
Duration : Mars, 2020 to Feb.2021
Location : Ras-Shukair, Egypt

Project Description: construction of oil storage tank farm including (5 storage tanks with Capacity 175k sq.m/tank, 3 utility tanks in addition to the related piping network and Equipment installation)

Job Title : QA/QC Department Manager
Project : SUMED Tank Farm lot 2 &Facilities
Client : **SUMED**
Employer : PETROJET
Duration : February, 2019 to February, 2020
Location : SUMED Port, Sokhna, Egypt

Project Description: construction of oil storage tank farm including (5 storage tanks with Capacity 100k sq.m/tank, 3 utility tanks in addition to the related piping network, Equipment installation and Marin Export Jetty works)

Job Title : QC Department Manager
Project : 150KM Nawras Pipelines(42",26",24").
Client : Belaem Petroleum Company – (**Eni**)
Employer : PETROJET
Duration : April, 2018 to February, 2019
Location : North of Nile delta-Egypt

Project Description: construction of 150KM Gas Pipelines (42",26",24")) in addition to 7 valve rooms stations with 5k Diameter inches works.

Job Title : QC Section Head Engineer
Project : Timimon gas Processing Plant
Client : **GTIM**
Employer : PETROJET
Duration : January, 2016 to Mars 2018
Location : Timimon –**Algeria**.

Project Description: construction Gas plant (1.2 billion \$), (0.5M Diam. Inches of piping works, Equipment installation and steel structure erection works).

Job Title : QA/QC Section Head Engineer
Project : Qasr gas Pre-compression Plant
Client : Khakda Petroleum Company -**Apache**
Employer : PETROJET
Duration : December, 2014 to December, 2015
Location : Western Desert-Egypt

Project Description: construction of Pre-compression gas Plant (0.5 billion \$), (piping works, Equipment installation and steel structure erection works)

Job Title : QC Section Head Engineer
Project : Assil & Karam Gas Development Feed (Badr 3)
Client : Badr Petroleum Company (Bapetco)-**SHELL**
Employer : PETROJET
Duration : From July, 2013 to December 2014
Location : Western Desert-Egypt
Project Description: construction Pre-compression Plant (0.8 billion \$), piping works (C.S, Stainless steel, Duplex Stainless steel) , Equipment installation and steel structure erection works)

Job Title : Senior QA/QC Engineer
Project : Desouque Development Pipelines 150 km.
Client : **RWE**
Employer : PETROJET
Duration : From December, 2012 to July, 2013
Location : Kafr-Elshiekh, Egypt
Project Description: construction of 150KM, 10 Gas Pipelines with Diameters (6":16).

Job Title : Senior QC Engineer
Project : Elmerk off Site Facilities (Lot 3 & 4)-
Client : **SAA (SONATRAC-Anadarko Association), Algeria**
Employer : PETROJET
Duration : From December, 2010 to December, 2012
Location : Elmerk, Algeria
Project Description: construction of 120 Gas Flowlines (material API5L, X52, X65 and X70) with total length **650km**, diameters (2":24") in addition to 4 valve rooms stations with 60k Diameter inches piping fabrication and erection.

Job Title : Senior QA/QC Engineer.
Project : 48"- Hassy Raml-Chaiba GK3 Pipeline (LOT 1 –270KM).
Client : **TRC-SONATRAC, Algeria**
Employer : PETROJET
Duration : From May, 2010 to December, 2010
Location : Hassy Raml, Algeria
Project Description: construction of 48"/400km Gas Pipelines (material API5L, X70) in addition to 4 valve rooms piping works.

Job Title : Senior QA/QC Engineer
Project : 42"-Abu Hommos-Elnobaria Pipeline-65 KM
Client : **Gasco** (Egyptian Company for Natural Gases)
Employer : PETROJET
Duration : From Jun, 2008 to May, 2010
Location : Albehera, Egypt
Project Description: construction of 42"/65km Gas Pipelines (material API5L, X65) in addition to 4 valve rooms piping works

Job Title : QA/QC Engineer
Project : Obaiyed Gas PreCompression Plant & maintenance of obaiyed plant
Client : Badr Petroleum Company (Bapetco)-(**SHELL**)
Employer : PETROJET
Duration : From Jun, 2007 to Jun, 2008
Location : Western Desert, Obaiyed Field, Egypt

Project Description: construction of Pre-compression gas Plant, (piping works, Equipment installation and steel structure erection works) + 1 shutdowns

Job Title : QC Engineer
Project : Qasr Gas Field Development
Client : Khalka Petroleum Company-(**Apache**)
Employer : PETROJET
Duration : From July, 2006 to Jun, 2007
Location : Western Desert, Obaiyed, Egypt

Project Description: construction of Pre-compression gas Plant, (piping works, Equipment installation and steel structure erection works) + 1 shutdowns

Job Title : QC Engineer
Project : Maintenance of the Obaiyed Gas Plant
Client : Badr Petroleum Company (Bapetco)-(**SHELL**)
Employer : PETROJET
Duration : From April, 2005 to July, 2006
Location : Western Desert, Obaiyed Field, Egypt

- **Project Description: 6 shutdown** for Maintenance of the gas Plant, (Fabrication and erection of piping works piping fabrication and erection, piping inspection), Equipment installation.

Job Title : QC Engineer
Project : ELNG (Egyptian Liquefying Natural Gas Plant)
Client : **BECHTEL**
Employer : PETROJET
Duration : From December, 2003 to April, 2005
Location : Edco, Egypt

Project Description: construction of 2 billion \$ LNG Plant, (piping works, Equipment installation and steel structure erection works, construction of gas export jetty)

Job Title : QC Engineer
Project : 32" Edco – Damietta Gas Pipeline- 160km)
Client : **GASCO** (Egyptian Company for Natural Gases)
Employer : PETROJET
Duration : Mars 2003 to Dec. 2003
Location : Egypt

Project Description: construction of 32"/180km Gas Pipelines (material API5L, X65) in addition to 8 valve rooms piping works.

Job Title : QC Engineer
Project : Ocean east Ziet phase (II) **offshore** platform.
Client : **Ocean Energy.**
Employer : E.M.C (Egyptian Company for Petroleum Maintenance)
Duration : Jan. 2002 to Feb. 2003
Location : Gabal Alziet, Suez Gulf, Egypt

Project Description: construction of **OFFSHORE** Gas production platform, (Platform fabrication and erection) & piping fabrication and erection

Job Title : QC Engineer
Project : ASPEC (Alexandria Special Petroleum Products Co).
Client : ASPEC (Alexandria Special Petroleum Products Co).
Employer : Hassan allam Sons Construction Company
Duration : Feb. 2001 to Jan. 2002
Location : Alexandria, Egypt

Project Description: construction of Alexandria Special Petroleum Products Plant, (piping works, Equipment installation and steel structure erection works)

Projects & Industrial Works

- 1) MELEIHA PHASE II DEVELOPMENT- **Eni**
- 2) Coker Complex Rehabilitation, Suez, Egypt (**SOPC**)
- 3) Ras-Ghareb New Crude Oil Tank Farm, Egypt (**EPC**)
- 4) Shukair Crude Oil Tank Farm, Egypt-**(BP)**
- 5) **SUMED** Tank Farm lot 2 & Facilities. Sokhna, Egypt
- 6) 150KM Nawras Pipelines (42", 26", 24"). Delta North, Egypt-**(Eni)**
- 7) Timimom Gas Processing plant-Timimon, Algeria.-**(GTIM)**
- 8) Qasr Gas Precopression Plant - Western Desert, Egypt- **(APACHE)**
- 9) Assil & Karam Gas Development Feed (Badr 3) Western Desert, Egypt- **(SHELL)**
- 10) Desouque Development Pipelines. Project, Kafr-Elshiekh, Egypt. **(RWE)**
- 11) Elmerk off Site Facilities (Lot 3 &4) Project, Hassy-Messaoud, Algeria- **(ANADARCO)**
- 12) HassyRaml - Chaiba GK3 LOT 1 - 270 KM Pipeline 48", Hassy Raml, Algeria-(SONATRAC)
- 13) 42"-Abu Hommos-Elnobaria Pipeline-65 KM, Egypt -**(GASCO)**
- 14) (Obaiyed Gas PreCompression Plant Project), western Desert, Egypt- **(SHELL)**
- 15) Qasr Field Development, western Desert, Egypt- (APACHI)
- 16) Maintenance of the Obaiyed Gas plant, western Desert, Egypt - **(SHELL)**
- 17) ELNG (Egyptian Liquefying Natural Gas Plant), Edco, Egypt- **(BECHTEL)**
- 18) 32" Edco – Damietta Gas Pipeline- 80km, Egypt-(GASCO)
- 19) 8"(A1 – A4) Pipeline- 10km, Abu-Elgharadik, western desert, Egypt -**(BP)**
- 20) Ocean east Ziet phase (II) offshore platform. Suez Gulf, Egypt – **(OCEAN ENERGY)**
- 21) **ASPEC** (Alexandria Special Petroleum Products Company) Project, Alexandria, Egypt

*Skills:

• Materials Management • Process Improvement • Problem Solving • Operational Excellence • Continuous Improvement • Root Cause Analysis • Organization Skills • Communication • Leadership • Team Management • Initiative and creative • High ability to work under pressure
