

ANANTHU PRASAN

METALLURGICAL ENGINEER

PROFILE

Metallurgical Engineer with 2 + years of experience in manufacturing, in the field of specializing in Research and development and Metallurgy division for process optimization, better quality and cost-effective solutions. Highly proficient in Heat Treatment, Failure Analysis, Alloy Development, Mechanical, Microstructure and Corrosion Testing. Demonstrated ability to effectively manage project and meet deadlines, while maintaining high levels of quality and safety

EXPERIENCE

➤ PEEKAY STEEL CASTINGS (P) LTD, CALICUT, KERALA

ENGINEER - RESEARCH AND DEVELOPMENT/METALLURGY
JANUARY 2023-PRESENT

- Experience in overall foundry procedures and Ability to guide the process owners to improve the process by giving metallurgical input to improve quality, reduce cost and improve lead-time.
- Directly involved in the development of various new alloy grades and castings.
- Gained professional experience in Metallographic testing, Destructive testing and chemical analysis. Skilled in microstructure evaluation using metallurgical microscopes. Experience in working ISO/IEC 17025:2017 NABL accredited laboratory.
- Good knowledge in defect analysis and mechanical failure analysis. Analyzed and evaluated test results for corrosion, hardness, and other physical, chemical, and metallurgical characteristics.
- Adherence to various codes and standards including ASTM, ISO, NACE, NORSOK and ASME. Preparations and execution of NDT inspections and procedures, and interpretations of these reports and documents.
- Welding inspections, metallurgy and preparation of Welding Procedure Specification (WPS) and Procedure Qualification Record (PQR).
- Monitoring and planning of Heat Treatment Processes and Special heat analysis for the Super Alloys.

• STEEL & INDUSTRIAL FORGINGS LTD, THRISSUR, KERALA

GRADUATE ENGINEER TRAINEE (HEAT TREATMENT LAB)
NOVEMBER 2021-NOVEMBER 2022

- Gained good knowledge on the destructive testing and Microstructural analysis of Aluminum, Titanium and various Steel grades.
- Worked on the heat treatment of Ferrous and Non-Ferrous Metals, Aerospace metals and Metallographic Analysis. Coordinated quality inspection with customers like VSSC, LPSC, BrahMos, BARC etc

PROFESSIONAL SKILLS

- Metallographic Testing
- Mechanical & Corrosion Testing
- Chemical analysis (OES)
- Heat Treatment & Analysis
- Research & Development Quality Assurance & Compliance
- Failure Analysis Study
- Non- Destructive Testing, Welding Inspection & Metallurgy
- Foundry Procedures

TECHNICAL SKILLS

- Skilled in Microsoft Office
- Documentation
- Report Making
- Technical Writing Basics of C programming
- Internet & E-mails

LANGUAGES KNOWN

- English
- Tamil
- Malayalam (Mother Tongue)

PERSONAL STRENGTHS

- Leadership
- Communication Skills
- Organization Skills
- Mangement Skills
- Presentation & Professional Skills
- Critical Thinking

EDUCATION

- **BTECH IN METALLURGICAL & MATERIALS ENGINEERING**

APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY, KERALA
AUGUST 2017- JULY 2021 - 7.99 CGPA

- **HIGHER SECONDARY EDUCATION, STATE SYLLABUS**

HOLY FAMILY HIGHER SECONDARY SCHOOL, KOTTAYAM
JUNE 2015 - MAY 2017 - 86 PERCENTAGE

- **SSLC, STATE SYLLABUS**

CROSSROADS HIGHER SECONDARY SCHOOL KOTTAYAM
JUNE 2014 - MAY 2015 - 95 PERCENTAGE

TRAININGS AND CERTIFICATIONS

- Internship at Kerala Automobiles Limited, Trivandrum, Kerala.
- Completed Material Behaviour course offered by Coursera.
- Completed Material Processing course offered by Coursera.
- Completed Blender Animation course offered by IIT Bombay.

ACADEMIC PROJECTS AND REPORTS

- **UG Project: A Study on the Effect of Cryogenic Treatment on the Mechanical Properties of M7 High Speed Steel.**
- **Paper Submitted: Carbon-Based Nanomaterial's: Synthesis and Applications.**
- **Design Project: Mini Metal foundry** (Miniature and much cost-effective version of metal foundry)
