Address 📍 House No. 1010 Block Q, Johar Town, Lahore, Pakistan.

WORK EXPERIENCE

Internee Foundry Engineer

Jul 2023 – Aug 2023

Ravi Autos Shiekhupura (Pvt.) Ltd., Shiekhupura, Pakistan

- ✓ Assisted in optimizing sand casting processes, identifying key defects, and suggesting process improvements that contributed to a reduction in defects 10%.
- ✓ Gained hands-on experience working with CNC and lathe machines, improving machining accuracy by 7% through precise operation and adjustments.
- ✓ Monitored and adjusted furnace operations to achieve target temperatures, ensuring optimal metal compositions that improved casting quality, contributing to a reduction in defects by 15% during production runs.
- ✓ Collaborated with the engineering team to streamline mold preparation and reduce processing time by 12%.
- ✓ Diagnosed operational inefficiencies in foundry processes and implemented adjustments that improved product consistency by 25%, ensuring alignment with the quality standards set for high-quality casting production.

EDUCATION

Metallurgy and Materials Engineering

2020-2024

Institute of Metallurgy and Materials Engineering

University of Punjab

Lahore, Pakistan

- ✓ *Thesis:* Bio-compatibility and Mechanical Properties of NiTi Shape Memory Alloy with Rare Earth Metal (Ce)

Intermediate

2018-2020

Punjab Group of Colleges

Muslim Town, Lahore

Pakistan

Matriculation

2016-2018

The Punjab School

Johar Town, Lahore

Pakistan

SKILLS

- ✓ CAD
- ✓ Ms Excel
- ✓ Origin Software
- ✓ Microsoft PowerPoint
- ✓ L^AT_EX
- ✓ Microsoft Word

Languages

- ✓ Urdu: Mother tongue
- ✓ English

CERTIFICATIONS

- ✓ Certificate on 'Introduction to Occupational Safety & Health as Profession" by Head Procyon Group and the Director.
- ✓ Certificate on attending "Additive Manufacturing of Bio-Materials" .
- ✓ Registered as a "Registered Engineer" with the Pakistan Engineering Council.

LAB EXPERIENCES & PROJECTS

★ **Bio-compatibility and Mechanical Properties of NiTi Shape Memory Alloy with Rare Earth Metal (Ce) (FYP)**

★ **Led the preparation and evaluation of mullite rods to determine the strength dependencies on the varying sintering temperature**

★ **Investigated the effects of stress corrosion on aluminum alloy under saline conditions in an open-ended laboratory study.**

★ **Carried out truss strength design and analysis with steel components, incorporating bend tests (welding and UTM) and simulations in an Open-Ended Lab (OEL).**

★ **Executed tensile testing of polymeric materials utilizing a Hounsfield tensometer, generated stress-strain curves, and conducted a comprehensive analysis of mechanical properties in an Open-Ended Lab (OEL)**

★ **Designed and executed a four-piece casting process for a hollow cylinder using aluminum alloy in an Open-Ended Lab (OEL).**

★ **Carried out austempering heat treatment on high carbon steel at various temperatures, analyzed microstructure, and measured hardness before and after heat treatment in an Open-Ended Lab (OEL).**

★ **To determine the effect of Bentonite clay and Moisture content on the Green Shear Strength of Molding Sand. Open End Lab (OEL)**

★ **Analyzed the influence of bentonite clay and moisture content on the green shear strength of sand molding within an Open End Lab (OEL).**
