ID: 3520254540023 **Nationality:** Pakistani **Date of birth:** 14/02/2003 **Place of birth:** Lahore, Pakistan
Gender: Male **Phone number:** (+92) 3701178566 **Email address:** marooffaheem14@gmail.com
Whatsapp Messenger: +92 3095543239
LinkedIn: [Maroof Faheem](#)
Home: House # 1010 Block Q Johar Town, Phase 2, 54782 Lahore (Pakistan)

ABOUT ME

A Materials and Metallurgical Engineering graduate from the University of the Punjab, Lahore, with a strong academic foundation in materials characterization, materials processing, and mechanical performance analysis. Possesses hands-on knowledge of engineering materials testing, manufacturing processes, and quality and compliance principles, with the ability to apply technical skills to real-world engineering and industrial challenges. Highly motivated, detail-oriented, and a proactive learner with a collaborative mindset, committed to continuous professional development, quality improvement, and contributing to reliable, standards-compliant engineering solutions.

WORK EXPERIENCE

QMSCI – Lahore, Pakistan

Website: www.qmsci.org | **Business or sector:** Professional, scientific and technical activities

Management Trainee Officer (Executive Officer)

[01/07/2025 – Current]

- Assisting in the development and review of **Technical Documentation** to ensure alignment with **EU MDR** General Safety and Performance Requirements (GSPR).
- Gaining hands-on exposure to Integrated Management Systems (IMS), including **ISO 9001 (Quality)**, **ISO 14001 (Environment)**, and **ISO 45001 (Health & Safety)**.

Ravi Autos Sheikhpura Pvt. Ltd – Sheikhpura, Pakistan

Website: www.raviautos.com | **Business or sector:** Manufacturing

Foundry Engineer (Internship)

[07/2023 – 08/2023]

- Rotated through foundry, machining, and production engineering divisions, gaining hands-on exposure to manufacturing workflows and industrial operations.
- Applied practical knowledge of casting processes, machining operations, and material handling within a high-volume manufacturing environment.
- Assisted in high-pressure die casting (HPDC) operations, supporting process setup, production activities, and component evaluation.
- Collaborated with production and engineering teams to understand process parameters, quality requirements, and manufacturing controls.

EDUCATION AND TRAINING

Bachelor of Science (Engineering) Metallurgy & Materials Engineering

University of the Punjab [2020 – 2024]

City: Lahore | **Country:** Pakistan | **Website:** www.pu.edu.pk | **Field(s) of study:** Engineering, manufacturing and construction | **Final grade:** 3.17/4.00 | **Level in EQF:** EQF level 6 | **NQF Level:** 6 | **Thesis:** Bio-compatibility and Mechanical Properties of NiTi Shape Memory Alloy with Rare Earth Metal (Ce)

Engineering Mechanics, Corrosion Engineering, Mechanical Behavior of Engineering Materials, Foundry, Tribology and Surface Engineering, MATLAB and SIMULINK, Composite and Composite Materials, Industrial Quality Management.

F.Sc. Pre-Engineering

Punjab Group of Colleges [2018 – 2020]

City: Lahore | Country: Pakistan | Website: www.pgc.edu.pk | Field(s) of study: Natural sciences, mathematics and statistics: • Chemistry • Physics • Mathematics | Final grade: 965/1100 A+ | Level in EQF: EQF level 4 | NQF Level: 4

Matriculation (Science Group)

The Punjab School [2016 – 2018]

City: Lahore | Country: Pakistan | Website: www.thepunjabschool.edu.pk | Field(s) of study: Natural sciences, mathematics and statistics: • Biology • Chemistry • Physics • Mathematics | Final grade: 1034/1100 A+ | Level in EQF: EQF level 3 | NQF Level: 3

PROJECTS

[2024]

Bio-compatibility and Mechanical Properties of NiTi Shape Memory Alloy with Rare Earth Metal (Ce) Completed a thesis focused on evaluating the influence of cerium (Ce) addition on the bio-compatibility and mechanical behavior of NiTi shape memory alloys.

[2024]

Truss Strength Design and Analysis Using Steel Components Completed an academic Open-Ended Lab project involving truss design and strength analysis using steel components. The project included bend testing, welding evaluation, Universal Testing Machine (UTM) testing, and basic simulation to assess structural performance.

[2023]

Design and Casting of Hollow Aluminum Alloy Cylinder Designed and executed a four-piece casting process for producing a hollow cylinder using aluminum alloy as part of an Open-Ended Lab (OEL). The project involved process planning, mold design considerations, casting execution, and evaluation of the final component.

[2023]

Stress Corrosion Cracking Behavior of Aluminum Alloy in Saline Environment Investigated the effects of stress corrosion on aluminum alloy under saline conditions as part of an academic Open-Ended Laboratory (OEL) study, involving controlled exposure, observation of material degradation, and analysis of corrosion-related behavior.

[2023]

Austempering Heat Treatment and Microstructural Analysis of High Carbon Steel Carried out austempering heat treatment on high carbon steel at various temperatures as part of an Open-Ended Lab (OEL). The work involved microstructural analysis and hardness measurement before and after heat treatment to evaluate the effects of processing conditions on material properties.

[2023]

Influence of Bentonite Clay and Moisture Content on Green Shear Strength of Molding Sand Analyzed the influence of bentonite clay and moisture content on the green shear strength of sand molding as part of an Open-Ended Lab (OEL). The study involved controlled variation of parameters, sample preparation, and evaluation of molding sand strength characteristics.

[2023]

Effect of Bentonite Clay and Moisture Content on Green Shear Strength of Molding Sand Conducted an academic Open-Ended Lab (OEL) study to determine the effect of bentonite clay and moisture content on the green shear strength of molding sand. The project involved sample preparation, controlled variation of parameters, and evaluation of sand strength behavior.

[2022]

Tensile Testing and Mechanical Characterization of Polymeric Materials Executed tensile testing of polymeric materials using a Hounsfield tensometer, generated stress-strain curves, and performed analysis of mechanical properties as part of an Open-Ended Lab (OEL).

[2022]

Preparation and Evaluation of Mullite Rods Conducted an academic Open-ended lab project on the preparation and evaluation of mullite rods to study the effect of varying sintering temperatures on mechanical strength. Involved material preparation, sintering, mechanical testing, and analysis of strength-temperature relationships.

CERTIFICATIONS

[The Knights of Safety, 08/12/2025]

ISO 9001:2015 Quality Management System Awareness Completed awareness training on ISO 9001:2015 Quality Management System, gaining foundational knowledge of quality management principles, process approach, risk-based thinking, documentation requirements, and continuous improvement practices.

Mode of learning: Online

Link: <https://academy.theknightsofsafety.com/certificates/9epabhwtej>

[The Knights of Safety, 09/12/2024]

ISO 50001:2018 Energy Management System Awareness Completed awareness training on ISO 50001:2018 Energy Management System, gaining foundational understanding of energy management principles, energy performance improvement, monitoring and measurement, compliance obligations, and continual improvement.

Mode of learning: Online

Link: <https://academy.theknightsofsafety.com/certificates/dtvhtlsge9>

[The Knights of Safety, 09/12/2025]

ISO 14001:2015 Environmental Management System Awareness Certified in ISO 14001:2015 Environmental Management System Awareness, with foundational knowledge of environmental management principles, identification of environmental aspects and impacts, compliance obligations, risk-based thinking, and continual improvement.

Mode of learning: Online

Link: <https://academy.theknightsofsafety.com/certificates/dokujm0pzi>

[Pakistan Engineering Council, 31/12/2024]

Registered Engineer Registered Metallurgical Engineer with the Pakistan Engineering Council (PEC), meeting accredited engineering education requirements and professional standards, with foundational knowledge of materials processing, heat treatment, failure analysis, and quality control principles.

CONFERENCES AND SEMINARS

[2024] Institute of Metallurgy and Materials Engineering, University of the Punjab, Lahore

Additive Manufacturing of Bio-Materials Attended a technical seminar on Additive Manufacturing of Bio-Materials, gaining awareness of 3D printing technologies, biomaterial processing, material properties, and applications in biomedical and advanced manufacturing fields.

LANGUAGE SKILLS

Mother tongue(s): Urdu

Other language(s):

English

LISTENING B2 READING B2 WRITING C1

SPOKEN PRODUCTION B2 SPOKEN INTERACTION B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Technical and Software Skills

Microsoft Office / Microsoft Word / Microsoft Excel / Outlook / Zoom / Google Docs / Microsoft Powerpoint / MATLAB & Simulink / AutoCad / LaTeX / Social Media Platforms

Scientific & Laboratory Techniques

Metallography / Electrochemical Impedance Spectroscopy (EIS) / Electrochemical Characterization / X-ray Diffraction (XRD) Spectroscopy

Analytical and Problem-Solving Skills

Analytical Skills / Critical Thinking / Problem-Solving / Research and Data Analysis / Decision-Making

Communication Skills

Verbal Communication / Presentation Skills / Professional Communication / Written Communication / Active & Empathic Listening

Interpersonal and Teamwork Skills

Teamwork & Collaboration / Team-Oriented Mindset / Empathy / Conflict Resolution / Reliability

Organizational and Time Management Skills

Organizational Skills / Planning & Coordination / Attention to Detail / Responsibility / Time Management / Strategic Planning / Initiative & Motivation / Flexibility & Adaptability

I hereby declare that the details furnished in this curriculum vitae are complete, correct, and verifiable. All academic records, research activities, professional experience, and certifications mentioned are based on authentic documents issued by the respective institutions. I acknowledge my responsibility to provide supporting evidence when required and accept full accountability for the accuracy of the information presented.
