Materials and Metallurgical Engineer

About Me

Enthusiastic and detail-oriented Materials and Metallurgical Engineer with a B.S in Materials and Metallurgical Engineering from University of Punjab Lahore Pakistan. Dedicated Quality Control professional with practical experience in piping and tank fabrication inspection gained from IKAN Engineering Services and NDT experience from Millat Equipment Limited. Eager to apply strong understanding of quality standards and technical processes to contribute to major engineering projects in the Gulf.

Hiring Manager, Really Great Place

Dear HR,

I am writing to express my strong interest in the QC Inspector (Piping and Tank) position at your organization . My experience as a Quality Control Inspector in the Piping and Tank fabrication section at IKAN Engineering Services Pvt Ltd provided hands-on expertise in ensuring compliance with ASME and API codes through material inspection, PMI, and comprehensive welding surveillance. This, combined with my work in the QA/QC Department at Millat Equipment Limited, where I performed crucial mechanical testing, has equipped me with a practical understanding of material behavior and quality.

I would welcome the opportunity to bring my skills, reliability, and QC Inspector (Piping and Tank) experience to your team. Thank you for considering my application.

Sincerely,

Numan Ahmad
