LEAD QA/QC - Piping / Mechanical / Structural / Welding

OBJECTIVE

Looking for a challenging career and assignments in the field of project engineering & management in industrial projects and infrastructure sector to utilize my skills in an organization which offers professional growth while being flexible and innovative and to be recognized as an efficient & competent individual having good interpersonal, technical and managerial skills.

EDUCATIONAL QUALIFICATION

Bachelor of Engineering in Mechanical Engineering (1992-1996), Sastra Deemed University, Tamil nadu, India

TECHNICAL QUALIFICATION

- CSWIP 3.1, Certified Welding inspector by TWI, UK. [Certificate No: 505962 Expiry: 02ndSeptember 2027]
- Aramco - (Project approval of Welding Inspector - 2013)
- ADNOC -(Project approval for Habshan - 5 CO2 Recovery & Injection Project - Start on Sep'2024)
- Certified welding inspector from American Welding Society (AWS - CWI) Certificate. No:09113871(2009-2018)
- ASNT Level II Certification in
 - Radiography Testing
 - Liquid Penetrant Testing
 - Ultrasonic Testing
 - Magnetic Particle Testing
- Qualified Internal Auditor training for Integrated Management System (IMS) ISO 9001-2015, ISO 14001 - 2015 & ISO 45001 - 2018 - SGS Gulf Limited, UAE
- Blue Ocean Corporation (Workshop of Lean Management Six Sigma Yellow Belt held on 2nd March 2024)

ORGANIZATION SERVED

- M/s TUV - Austria / Global Inspection Services (GIS), Abudhabi - (May 2024 to Till date)
- M/s AMSTIV Construction Pvt Ltd, Bangalore, India - (Sep 2023 to April 2024)
- M/s SGS India Pvt Ltd- Tamil Nadu, India - (Nov 2022 to April 2023)
- M/s Dubois chemicals Ltd, Canada / Prominent Engineering FZE, Sharjah FZE (JV) - (Nov'21 to March 22)
- M/s Inverco Pvt Ltd (L & W Construction Pvt Ltd) - Pan India - (March 2021 to Oct 2021)
- M/s Descon Engineering FZE, Sharjah, UAE - (Oct 2020 to Feb 2021)
- M/s Eversendai Engineering Corporation, Dubai, UAE - (Nov 2003 to Oct 2020)
- M/s Tetracon Engineering Sdn Bhd, Malaysia - (May 1999 to June 2003)
- M/s Voss Tech (Chennai) Pvt Ltd- Tamil Nadu India- (Sep 1997 to May 1999)
- M/s Mech-Tech (Chennai) Pvt Ltd- Tamil Nadu India - (July 1996 to Aug 1997)

AREA OF EXPERTISE:

- Material Inspection, Piping, Tank, Values, Cladding, Acc Duct - Fabrication / Construction.
- Piping, Values, Tank & Structural - Fabrication / Construction / Erection and Installation
- Welding - WPS/PQR/WPQR/NDT Procedures/Spec./ drawings / review / Visual / Witness / NDT Inspection.
- Mechanical - Rotating and Static Equipment Installation, Dimensional & Alignment Inspection
- NDT - RT / UT / MPT / LPT / VT Witness / Radiographic Interpretation.
- Coating and Painting Inspection.

CAREER SUMMARY

Graduated in Mechanical Engineering, specialized in Lead QA/QC Engineer around 22 substantial years (Gulf - 17 & India - 5)

of Expertise and experience in Quality Control Department of Progressive experience in the field of oil&gas / Petrochemical industry, Power plants, refinery, EPC, pipelines, pressure vessels and tanks, Values for Fabrication, Painting and Installation of equipment and Cladding & Steel structures for airports, bridges, shipyards, Data center, Malls & high raise building structures.

Expertise in QA&QC functions as core area of fabrication and Erection and caught up in Procurement, production functions, Material planning, Site Installation, Maintenance work, vendor development & Subcontract management of Fabrication, Erection of Steel structures, piping connections, Weld monitoring and control, NDT, DT, Painting & fireproofing of Piping and Steel Structures, Cladding structures, Hands of experience with good knowledge of engineering (standards) & Trouble shootings TPI working with one of the major such as SGS, TUV, BV, Velosi, Moody International & INSPEC and Good exposure preparation in Project Quality Plan, Procedures, Method statements, Punch listing, Inspection and Test Plans, Check sheets, WPS, PQR, WQTR preparing various Quality reports, Inspection reports, NCRs, Presentations handouts, Flow charts, identifying Potential Process and Product Non Conformances and develop Corrective actions to eliminate in early stage. Ability to handle QA/QC activities independently to the requirement of standards and to the satisfaction of clients.

PROFESSIONAL EXPERIENCE

Company : M/s. TUV - Austria / Global Inspection Services (GIS), Abudhabi, UAE

Designation : Senior QC Engineer - Welding / Piping / Mechanical

Duration : Sep 2024 to Till date

Projects:

- **Habshan - 5 CO2 Recovery and Injection Project - (Contractor - Technomak Energy FZC, Main Contractor - Petrofac Emirates, Client - ADNOC) - On going project**

Company : M/s. TUV - Austria / Global Inspection Services (GIS), Abudhabi, UAE

Designation : Senior QC Engineer - Welding / Piping / Mechanical

Duration : May 2024 to Sep 2024

Projects:

- **Replacement of 36" Flare Acid Gas Line - Habshan - I (Phase 2) - Shut down Project - (Contractor - ISCCO, W.L.L Client - ADNOC)**

Company/Contractor : M/s. AMSTIV Construction Pvt. Ltd, Bangalore & Chennai, India.

Designation : Asst. QA/QC Manager

Duration : August 2023 to April 2024

Projects:

- **TVS Emerald SGSU Office - Mission Road, Bangalore - (Steel structure / Cladding Structure for Fabrication, Erection & Painting work) - Client - TVS Emerald & Consultant - Inno Tech**
- **TVS Emerald SGSU Office - Rachna Halli, Bangalore - (Steel structure / Cladding Structure for Fabrication, Erection & Painting work) - Client - TVS Emerald)**

Company : M/s. SGS India Pvt. Ltd, Tamil Nadu, India. (Freelancer)

Designation : LEAD Inspection Engineer (Environmental & Industrial)

Duration : Nov 2022 to April 2023

Main Contractor : OCEAN LIFE SPACECS (I) Pvt. Ltd - EPC Contractor - Chennai 600032.

Client - IOCL, Mumbai 400051

Consultant - PEC Ltd, Singapore 628144.

Project : Grass Root Lube Complex (PEB Process Plant, Internal Pipe Rack, External Pipe Rack, Cladding structure, Loading Structure, Oil tank, Scrap Yard, Utility Building, DM & Raw Water Buildings- Fabrication and Painting work) - Chennai & Pondicherry.

Company : Dubois chemicals Ltd, Canada / Prominent Engineering FZE, Sharjah FZE (JV)

Designation : Lead QC Inspector

Duration : Nov 2021 to March 2022

Main Contractor : M/s. ALNASR - EPC Contractor - Abudhabi **Client** : ADNOC Gas Processing

Project : Enhancement of Sulphur Dust Control System by use of "Foam Injection Technology" - Skid Frame, Tank, SS Piping fabrication and Painting work, Equipment Installation, Test pack preparation & Hydro test.

Company : INVERCO Pvt Ltd (L & W Construction Pvt Ltd) - Bangalore & Chennai - India

Designation : Asst. QC Manager

Duration : March 2021 to Oct 2021

Projects :

- Boeing India Pvt Ltd - Bangalore, (Steel structure / Cladding Structure for Fabrication, Erection & Painting work) - **Client - Boeing & Consultant - AECOM**
- Coal comm. Project - Bangalore, (Steel structure / Cladding Structure for Fabrication, Erection & Painting work) - **Client - Coal comm**
- Adani DC-1 Chennai Data Centre (Steel / Cladding / Roof Structures for Fabrication, Erection & Painting work) - **Client - Adani Enterprises Ltd & Consultant - AECOM**

Company : Descon Engineering FZE, Sharjah, UAE

Designation : Senior QC Piping Inspector

Duration : Oct 2020 to Feb 2021

Project : EPC for Replacement of Obsolete Sales Gas skid Metering Systems, UAE.

(Client/Owner - ADNOC Gas Processing Contractor : Fortune Engineering & Energy services LLC, UAE.

Project : EPC for Strategic Tunnel Enhancement Program - Tunnel Pumping Station, UAE.

(Client/Owner - ADNOC Gas Processing Contractor : DRAKE & SCULL, UAE.

Company : Eversendai Engineering Corporation, Dubai, UAE

Designation : Senior QA/QC Engineer

Duration : Nov 2005 to Oct 2020

Projects:

- Mall of Emirates - DXB (Client - Majid Al Futtaim Investments & Consultant - Hyder / Al Naboodah)
- Khalifa Olympic Stadium - Qatar (Client - KOS Committee & Consultant - Midmac Contracting)
- Dubai International Airport Expansion - Phase II (Terminal III, Concourse II & III) - (Client - Department of Civil Aviation / Belhasa / Six construct & Consultant - Bechtel)
- The Burj Khalifa (Height 823m) World Tallest Tower- DXB (Client- Emaar Properties PJSC / Samsung / Besix / Arabtec JV & Consultant- Skidmore Owings & Merrill)
- The Dubai Mall - Dubai (Client - Emaar Properties PJSC / DBB / Al Ghandi / CCC / ALICO & Consultant - Meinhardt - Singapore)
- New Doha International Airport (NDIA) Qatar (Client - NDIA Steering Committee/ Taisei corporation/ TAV JV & Consultant - Bechtel)
- NPCC Skid Shoes - (EVSO) Abu Dhabi, UAE
- Hollandse Kust (ZUID) Beata - (EVSO) Netherlands (Wind Renewables Energy Jacket Structure Project)
- Innovation Leg Upgrade Project - (EVSO) Netherlands
- ADNOC Capital Gate (Feather Tower) - Abu Dhabi (Client - AL Habtoor Engineering Enterprises & Consultant - WS Atkins & Partners Overseas)
- Cleveland Clinic - Abu Dhabi (Client - BESIX / Samsung JV & Consultant - AECOM)
- KAPSARC - Riyadh, Saudi Arabia (Client - Saudi Aramco, Consultant - ARUP & Main Contractor - Drake & Scull)
- Abu Dhabi International Airport (ADIA) - Abu Dhabi (Client - SCADIA / Arabtec / CCC / TAV JV & Consultant - Bechtel)
- DAICEC - Mumbai, INDIA (Client - Reliance Industries & Consultant - Samsung C&T)
- Riyadh Metro Project (Package -1 & 3, Underground Structural Bridge) - Riyadh, KSA (Client - Arriyadh Development Authority (ADA) & Consultant - Bechtel / Almajani / CCC / Siemens JV)
- One Zaabeel Project - Dubai (Client - WSP & Consultant - ALEC)
- Museum of the Future - Dubai (Client - MERAAS / KILLA & Consultant - BAM)
- KSA Pavilion (EXPO 2020) - DXB (Client - Saudi Aramco & Consultant - DAR / Katabi & Alami / ALEC)

Company : Tetracon Engineering Sdn Bhd, Malaysia

Designation : Project QC Engineer

Duration : May 1999 to June 2003

Projects:

- Electrified Double Track Project Between Rawang to Ipoh Project, Malaysia.
- 2X60MW of Gelugor Combined Cycle Conversion Project - Malaysia (Client - Alstom & TNB Engineers)
- DE SMET Project, Subang Jaya - Malaysia, (Client - Synthomer SBR Latex LLC)
- New Bintulu Airport Project - Sarawak, Indonesia.
- Manjung - 3x700 MW Coal Fired Power Station Project - Penang, Malaysia
- Synthomer SBR Latex Project, Kluang, Malaysia (Client - Synthomer SBR Latex)

- Petronas - Centralized Utility Facility (CUF) - Kertih (Terengganu) Project, Modular type Heat Recovery Steam Generator (HRSG) of 6 each with capacity 130 TPH Gas Turbine (Make - ALSTOM) of 6 each with capacity of 30MW (Frame-VI). (Client - Alstom, Foster wheeler and Petronas)

Company : VOSS TECH Ltd, Chennai, India.

Designation : Production / QC Engineer

Duration : Sep 1997 to May 1999

Project : Mono pole transmission line towers for export to Malaysia & Ford India Ltd (PEB Building under subcontractor work) (Client - L&T Ltd, ECC Group, India)

Company : Mech-Tech Engineers (P) Ltd, Chennai, India.

Designation : Trainee QC Engineer

Duration : July 1996 to Aug 1997

Project : Ceramic industries used for components & Petro chemical industries. (Client - M/s. E.I.D Parry (I) Ltd, Hyderabad & M/s. JK Paper mills, Orissa.)

Roles & Responsibilities for QC:

- Prepare the QCP, ITP, WPS, PQR, and WQTR for different materials as per Project Specifications requirement and Conducting of Welder Qualification tests and prepare welder ID card and maintaining welder register.
- Reviewing of ITP's of client related to welding to assure the implementation of the same in the project without any conflicts.
- Review of all applicable documents such as ITP, Scope of work, Drawing, Quality plan Procedures, Codes and Standard.
- Carryout incoming material Inspection as per procurement order (P.O) and Verification with relevant Documents / Certificates from Manufacturer and Review & verify the Material mill Test certificate and Verify the Materials which comply with requirements shall be kept in stock and are identified, by stamping, stenciling, tagging, color-coding, etc. Off cuts also shall be punch the material code number.
- Received good experience co-ordination or installation and testing of Storage tank, plant piping, Boiler package, HRSG, air cooled condenser, Gas turbine, steam turbine, steam generator, static equipments, Rotating equipments, Fin Fan coolers.
- Check mechanical equipment, material in accordance with the drawing and specification.
- Inspection of Positive Material Identification (PMI) and Material verification.
- Documentation of field test reports, material receipt status, work progress, vendor test certificates and final acceptance certificate
- Suppliers and Sub-contractors' evaluation
- Materials handled: Carbon steel and alloy steel (A53, A106, A333 & A335 Gr P11, P22, P5 and P9), Stainless steel (SA403, SA240, SA182, SA312, TP304, TP316) and Duplex SS (SA790/790M).
- Witnessing of Mechanical Tests (Destructive Test) for the Procedure Qualification Records.
- Review of material certificates/batch certificates to check compliance with project specifications. To check meet the requirement as per EN10204 Type 3.1 and 3.2, Trace ability Check before and during Fabrication.
- Technical review of the parent material specification and welded joint properties and the joint location with relation of the design requirements.
- Technical review of the connections and accessibility of the weld and locations, sequence of welds and accessibility of the inspection and non-destructive testing.
- Responsible for Monitor and Control complete process parameters such as welding variables, Responsible for testing of metals and effectively reviewing the Material Test Certificates and its results as per the requirements.
- Verify the process controlling before and during welding (Preheating, inter pass temperature)
- Verify Storage Conditions of Electrode and Baking requirements and Periodic checking in validation of welding equipment's, baking/holding/ portable ovens, Verify the Electrode log on daily basis
- Review the Test Certificates for welding Consumables and verify the welding machines, oven conditions and calibration.
- Verifying proper storage, handling & issuance of welding consumables.
- Responsible for stage wise Material traceability, Fit-Up check, dimensional check, orientation, Weld Visual check, welding of

piping during fabrication, installation and testing of hydro testing on process, steam and utility piping works.

- Performing daily inspections in pre-welding, in-process & post welding activities as per the approved WPS.
- Checking the oxygen level in back purging using the purging monitor during the welding of SS & Alloy material.
- Ensuring pre heat and post weld heat treatments as per the WPS requirement.
- Monitored welding and piping activities as shop and Co-ordinates with welding supervisor on all welding activities.
- Review and Assist contractor in the preparation of a chart for service's requiring PWHT and monitor the PWHT activities & Witness & Review the PWHT and Hardness reports
- Interpretation and Review of RT Films as per Project Specification.
- Monitoring the weather condition prior to Blasting and Painting and making the records and Involve in the activities of carrying out different test on the painted materials such as "V" cut test and dolly test and Co-ordination with the paint manufacturer regarding the Project Specification.
- Visual Inspection of Blasted material and checking the Surface Profiles with the help of replica tape as well as needle gauge and maintaining the weather monitoring record and preparing the Blasting and Painting monitoring reports, Dry film thickness, recoating interval during painting and fireproofing etc, As per requirements.
- Preparing the Painting Analysis report on weekly bases.
- Prepare daily and monthly quality reports.
- Internal Nonconformance Reports and Field Trouble reports where quality deficiencies identified.
- Carry out support inspection as per support drawing and As-Built drawing
- Carry out steam track visual inspection, addressing inspection and manifolds pneumatic leak testing.
- Preparation of hydro test loop diagram and conducting hydro testing for piping and Boilers and preparing related report
- Prepare and review test package, Weld summary, NDT coverage's and Spool release inspection for pressure Testing and Painting.
- Piping line walk down inspection carried out with latest revision ISO drawing and P&ID
- Prepare punch list after line walk down like Category A, B, C.
- Review contents of test package before test will proceed
- Performed witness of all types of tests as hydro test of Piping spool and SS storage tank, pneumatic, etc. With designated holding time as per project Specifications and witnessed by Client, Contractor, TPI.
- Co-ordination with the client during the final inspection of the products.
- To performed re-instatement of various systems after flushing and hydro test, pre-commissioning activities after hydro testing and Preparation of punch list and Assistance in commissioning activities.
- FAT work preparation and submitted to Manufacturer Record Books (MRB) for Projects.
- Co-ordinates with document controllers for the completion of final dossiers as per the project requirements and Review the QC Dossiers before sending to site & submitting to clients.

PROFICIENCY LIST

- AWS D1.1/ M1.1 - 2020, AISC, ASTM,
- AP1-1104
- ASME B 31.1 - Power Piping, ASME B 31.3 - Process Piping, ASME B 16.5 - CS Pipe Flanges & Fittings
- ASME Sec - II, V, VIII-Div-1 and IX
- BS EN ISO 5817, BS EN ISO - 15614-1: 2004 + A2: 2012, BS EN 1011 - 1 & 2, BS EN 10025, BS EN 1090-2: 2008 + A1: 2011, BS EN ISO 17637, BS EN ISO, 9606-1: 2013
- NSSS 5th Edition
- AESS, ISO & SSPC
- IS 1161, IS 816, IS 7215, IS2062.

SOFTWARE PROFICIENCY

- Design & Drafting : AutoCAD
- Package : MS Office, MS -Word, MS- Excel
- Operating System: Windows XP, Windows 10, Windows 8
- Certificate course on Auto cad & Auto lisp (R14) at IIS info tech limited, India.
- Certificate course of CNC & Programming and operations

PERSONAL DETAILS

Name : Ramkumar Subramanian

Nationality : Indian

Passport No : S3047890

Marital Status : Married with blessed 2 Kids

Religion : Hindu

Languages Known : English, Tamil & Hindi, Malayalam.

Permanent Address : 88, Thukkampalayastreet,
Kumbakonam - 612001,
Thanjore District,
Tamilnadu.
