Profile

Metallurgical and Materials Engineer with strong organizational, communication, and multi-tasking skills. Proficient with Microsoft Word, Excel, PowerPoint and general computer/ tech skills. Seeking a challenging position with a progressive company that would utilize my educational background and work experiences in a mutually beneficial manner.

Employment

Apr 2025 - Present

INSPECTION ENGINEER IMMUSCO OIL FIELD EQUIPMENT LLC., On-Site

- Performed comprehensive Non-Destructive Testing (NDT), including Ultrasonic Testing (UT), Magnetic Particle Testing (MT), and Dye Penetrant Testing (PT) (at major client sites i.e Prime Pakistan Limited, Marri Petroleum Company Limited, OGDCL and Lucky Cement Limited etc) on critical infrastructure such as pressure vessels, pipelines, and structural welds.
- Prepared detailed inspection reports and recommendations for corrective actions, ensuring compliance with client requirements and regulatory standards.
- Coordinated with clients to schedule and execute inspection activities, providing technical support and resolving any issues promptly.

Nov 2023 - Mar 2025

INSPECTION ENGINEER DOLPHIN ENGINEERING SOLUTIONS, Site

- Manages the team as lead person in Various projects (PSO Tank Calibration Project, OGDCL Rig Inspection Project, Annual Calibration Projects).
- Responsible for the all communication from client to the upper management, responsible for problem solving during the project.
- Responsible for the documentation of project (Certificate generation, Proposal writing and final invoicing of the job completed).

- Conduction of inspection/calibration services for Pressure Devices, Tank Calibration, Instrument Calibration and Hydro-static Testing of Pressure Vessels in accordance of reference standard codes (API/ASME/ISO) at various industries (Nestle, Engro Foods, OGDCL, PSO, APL).
- Responsible for team lead during job execution at site and communication with clients.

Jul 2023 - Nov 2023

QC LAB ENGINEER
ACME ENTERPRISES (TBS-DENTAL), Lab

- Hired as lab engineer in QC laboratory, responsible for Material analysis, analyses material mechanical properties by using different characterization techniques including Microscopy, Tensile testing, Compression testing, fatigue testing and X-ray spectroscopy.
- Generate technical reports regarding to material analysis results and communicate with upper management regarding any material failure or quality compromised by the production department.

Aug 2022 - Sep 2022

ENGINEERING INTERN
ATLAS HONDA PRIVATE LTD., Various departments

- Got trained at various departments including Heat treatment shop, Hi-Tech shop, foundry shop and conducted inspection and testing of Honda bike engine parts.
- Conducted time study by which they have been able to achieve their targets before deadlines.
- Learned about industrial cultures and traditions as well as professional working skills.

Education

Sep 2019 - Oct 2023

BACHELOR OF SCIENCE IN METALLURGY AND MATERIALS ENGINEERING
BAHAUDDIN ZAKARIYA UNIVERSITY, Multan, Pakistan

- Field of study Metallurgy, Material science
- Final grade 3.82/4.00 CGP

Aug 2017 - Sep 2019

INTERMEDIATE (SCIENCE)
BISE MULTAN, Multan, Pakistan

- Field of study Pre-Engineering
- Final grade 80 %

Feb 2015 - Aug 2017

MATRIC (SCIENCE)
BISE MULTAN, Multan, Pakistan

- Field of study Matriculation
- Final grade 87 %

Final Year Project

Sep 2022 - Sep 2023

Sustainable route to obtain sodium silicate solution from industrial waste
Supervise a Four member team and synthesize a sodium silicate solution from industrial waste at environmentally friendly parameters and makes the synthesis process economical.

We perform FTIR, Specific Gravity Test (hydrometer test), Viscosity test, flow

rate testing for standards and quality to be assured.

Courses

Mar 2024	TESTING/CALIBRATION OF PRESSURE SAFETY/RELIVE VALVE, PRESSURE/VACUUM VENT VALVE AS PER API RP 576/API 527/ EN-14595 GUIDELINES <i>TUV rheinland Arabia LLC-Pakistan</i>
Mar 2024	HYDROSTATIC TESTING OF PRESSURE CONTAINING EQUIPMENT/VESSELS AND API 510 ASME SECTION VLLL GUIDELINES <i>TUV rheinland Arabia LLC-Pakistan</i>
Jul 2023	LIQUID PENETRANT TESTING, ULTRASONIC TESTING, MAGNETIC PARTICLE TESTING, RADIO-GRAPHIC TESTING (PT/UT/MT/RT) LEVEL-II <i>AL-Jaded Engineering Services, Pakistan</i>
Dec 2022	INDUSTRIAL PRACTICES IN INSPECTION, TESTING AND CERTIFICATION <i>BZU-Multan</i>
Mar 2021	INTRODUCTION AND FUTURE OF ADVANCED POLYMERIC MATERIALS IN PAKISTAN <i>BZU-Multan</i>
Jul 2022	COMMUNICATION AND SOFT SKILLS <i>Digiskill</i>

Skills

NDT LEVEL -II

Field Inspections

MATERIAL TESTING

Microsoft Office

Report-writing
