

ARNEL C. BALCUEVA

MECHANICAL ENGINEER

+966 56 354 5282 arnel44balcueva@gmail.com Al Naseem, Riyadh KSA

PROFESSIONAL OVERVIEW

Results-driven Mechanical Engineer with 24-years of expertise in power generation applications, industrial machinery, and technical management. Skilled in supervising maintenance operations, implementing quality systems, and optimizing the performance of light and heavy equipment. Proven ability to lead preventive maintenance programs, ensure operational efficiency, and support industrial equipment marketing and service strategies. Strong commitment to delivering high-quality engineering solutions in dynamic industrial environments.

WORK EXPERIENCE

Mechanical Technician | Power Generation & Industrial Equipment

Sawary Trading & Contracting Co. Ltd

June 2006- PRESENT

Dammam/Riyadh, Saudi Arabia

Experienced in mechanical maintenance, inspection, and repair of power generation and industrial equipment, with expertise in engine overhauling, commissioning, and preventive maintenance.

Key Responsibilities & Expertise:

- **Mechanical Maintenance & Inspections:** Conduct routine inspections and repairs for **MTU** and **Kohler** generators, ensuring optimal performance.
- **Engine Overhauling & Repairs:** Expertise in overhauling **Mitsubishi S16R/S12R**, **MTU Series 4000BR**, and repairing **Volvo TAD1242GE/1642GE**, **Detroit Diesel Series 60/92**, and **John Deere CD/RG** engines.
- **Commissioning & Installations:** Hands-on experience in **installation, commissioning, and decommissioning** of power equipment, including **MTU Onsite** and **Kohler ATS (Automatic Transfer Switch)**.
- **Preventive & Reactive Maintenance:** Implementing scheduled maintenance, troubleshooting breakdowns, and ensuring smooth site operations.
- **Technical Support & Documentation:** Diagnosing mechanical failures, preparing service reports, and ensuring compliance with job standards.
- **Site Coordination & Safety Compliance:** Managing parts availability, leading daily toolbox meetings, and enforcing HSE policies for efficient operations.

Committed to delivering high-quality mechanical solutions for reliable and efficient power generation systems.

EDUCATION

Bachelor's Degree

Mechanical Engineering

June 2000

SKILLS

- Communication
- Teamwork
- Critical thinking
- Time management
- Leadership
- Adaptability

SEMINARS & TRAINING

- **MTU Series 4000 X3 M1/M All Diesel Applications**
(MTU Abu Dhabi)
- **MTU Series 4000 X3 M3/All Diesel Applications**
(MTU Abu Dhabi)
- **PNEUMATICS APPLICATION & THEORY**
(by SMC Pneumatics-Philippines) June 2000
- **ROLLING BEARING THEORIES** (by FAG Bearing Philippines)
Oct. 16, 2002
- **PNEUMATIC TECHNOLOGY**
(by FESTO Pneumatics)

Mechanical Technician | Maintenance Engineering
GLADES International Corporations **March 2001 – March 2006**
LIIP, Binan Laguna, Philippines

- **Production Equipment Support:** Oversee machine performance, identify issues, and execute necessary troubleshooting.
- **Repair & System Upgrades:** Restore functionality of plastic thermo-forming and injection molding machines and enhance equipment through refurbishing, piping, and wiring improvements.
- **Scheduled & Emergency Servicing:** Conduct routine inspections, preventive maintenance, and urgent repairs to maintain operational efficiency.
- **Precision Calibration & Performance Checks:** Adjust and verify machine parameters to ensure accurate and reliable operation.
- **Facility Systems Management:** Maintain and service chillers, air compressors, air dryers, and AHU/ACCU to support production processes.

Mechanical Technician | Power Plant Engineering
GLADES International Corporations **March 1999 – March 2001**
LIIP, Binan Laguna, Philippines

- **Power System Monitoring:** Oversaw the operation of 5 x 500kW generators ensuring continuous power supply for the factory.
- **Preventive Maintenance:** Conducted routine servicing, including lube oil changes, air filtration, and radiator cooling system maintenance.
- **Electrical & Power Distribution Repairs:** Troubleshot and repaired power panels, switchgear, Merlin Gerin 800A ACBs, GE 800A Transfer Switches, and a 450kVAR Automatic Capacitor Bank.
- **Engine Overhauling & Tuning:** Assisted in top deck overhauls and tuning of Detroit Diesel 12V92 and Volvo Penta TAD1631GE engines.
- **Equipment Installation & Projects:** Completed installations of 5-ton electric chain hoists, 10-hp exhaust fans, and diesel fuel flow meters to improve facility operations.
