- Preparation and submission of comprehensive reports to Saudi Aramco Vendor Inspection Department and Project Management Team, including Monthly Quality Management Report, Procurement PQI Self Rating, Procurement Monthly Quality Dashboard, Two Week Look Ahead Inspection Schedule, and Weekly Inspection & Fabrication Status Report.
- Review and preparation of Materials Requisition, Inspection Assignment Package, and Inspection Disposition Report for uploading in EPM System.

// WORK EXPERIENCE

- Assurance of materials compliance with project requirements, standards, and specifications.
- Maintain logs: Material Requisition, IAP, NCR, Inspection Report.
- Conduct inspections per SAEP 1151 and Schedule Q.
- Prepare and submit Final Disposition Report (FDR) to close Inspection Lot.
- Investigate Non-Conformances, suggest solutions for prevention.
- Advise QA manager on violations/non-compliance for potential NCR issuance, especially in Procurement; prepare Material Deficiency Report.
- Responsible for tracking the closure of Procurement Related NCRs.

// DUTIES AND RESPONSIBILITIES AS A : PMT

- Review daily Scope Changes.
- Coordinate work schedules for timely project completion.
- Gather and analyze data on Project requirement changes.
- Prepare/edit meeting minutes, presentations, and tables.
- Ensure adherence to deadlines by team members.
- Evaluate purchase requisitions for preparing purchase orders.
- Monitor flow of purchase orders to suppliers and receipt of deliveries.
- Prepare Material Summary Report and Purchase Order Updates.
- Manage heavy workload under pressure with tight deadlines.
- Coordinate interfaces of all disciplines within PMT and Project Schedule.
- Collect Project documentation for quality reviews.
- Participate in work of other project units within PMT.
- Develop and maintain detailed project schedule.
- Participate in Project Team Meetings.
- File all project documents (hard and soft copies).
- Track project changes and update site-based schedule.
- Provide status reports of open issues and risks to project manager.
- Build Sub-schedule to determine procurement dates.

// DUTIES AND RESPONSIBILITIES AS A : PROCUREMENT / LOGISTIC MANAGER

- Supervise warehouse personnel to ensure compliance with quality programs for Electrical and Mechanical materials as per SAUDI ARAMCO & SABIC Standards and company policies.
- Continuously review materials inventory for improvement in interchangeability, generalization, and standardization.
- Coordinate with accounts payable department for timely supplier payment.
- Advise and assist purchasing department employees on procedures and specifications.
- Supervise warehouse activities including receiving, storage, and issuing of materials, ensuring proper handling and protection.
- Prepare Purchase Orders (PO) in compliance with approved PMA.

// DUTIES AND RESPONSIBILITIES AS A : PROCUREMENT / LOGISTIC MANAGER

- Evaluate and compare quotations, preparing Evaluation Comparison Sheet with recommendations.
- Plan, schedule, and coordinate material shipments with engineering, construction, and logistics coordinators.
- Review and evaluate technical documents and catalogues to ensure compliance with specifications and standards.
- Coordinate and execute warehouse and material activities within the discipline.
- Report directly to Warehouse/Material In charge, ensuring proper storage and documentation.
- Monitor shipment and arrival schedules, coordinating with Material Controllers and Site Supervisors.
- Prepare Receiving Inspection Report (RIR) and Material Exception Report (MER) for QC/QA inspection.
- Maintain and arrange material control documents received from subcontractors, ensuring systematic filing for reference.

// DUTIES AND RESPONSIBILITIES AS A : PROCUREMENT SUPERVISOR

- Liaise with Suppliers to fulfill material requirements for ongoing projects, ensuring smooth project flow and adherence to budget.
- Coordinate material requirements, requisitions, and deliveries with relevant departments.
- Coordinate and execute warehouse and material activities within discipline, reporting to Warehouse/Material Manager.
- Ensure timely, cost-effective purchase processes without compromising quality standards.
- Manage transportation, international shipping, and customs clearance.
- Monitor shipment handling with freight forwarders and coordinate with construction division on material status.
- Manage stock position, reorder materials as needed, and monitor consumption using CATs & Business Intelligence tools.
- Conduct periodic inventory checks and update records accordingly.
- Maintain and organize material control documents received from subcontractors.
- Complete shipping paperwork for domestic and international shipments and resolve freight claims.
- Coordinate orders between sales and logistics, ensuring compliance with domestic and international shipment laws.
- Research shipping carriers and costs for cost-effective transportation.
- Provide high-level reporting on key projects.
- Handle escalated issues with suppliers for on-time delivery.
- Review contracts with Forwarders and Clearing Agents.
- Work under pressure and meet project deadlines.
