

NUMAN AHMAD

Materials and Metallurgical Engineer

CONTACT

- +92303-2966900
- metallurgistnuman@gmail.com
- Chung Lahore Pakistan

SKILLS

- Strategic Planning
- Problem Solving
- Crisis Management
- Creative Thinking
- Data Analysis

EXPERTIES

- Materials Characterization
- Welding Techniques and Testing NDT & DT
- Metallography
- Heat Treatments
- Metal Casting & Forging
- Corrosion Control and Protections
- Machinal Testing
- Surface Engineering
- Foundry Engineering
- Auto Cad, Microsoft Office, Ansys and Matlab

LANGUAGES

- English (Fluent)

About Me

Versatile and results-driven Metallurgy and Materials Engineer with extensive expertise in materials processing, advanced welding techniques such as Friction Stir Welding (FSW), TIG, MIG, and Arc welding, as well as comprehensive metallurgical analysis. Proficient in melting, casting, and optimizing metal alloys to meet stringent quality standards. Renowned for delivering innovative solutions, enhancing material performance, and driving efficiency in demanding industrial operations. Ready to make a significant impact in high-performance engineering roles

WORK EXPERIENCE

Millat Equipment Limited Jan. 2023 July 2023

Heat Treatment Engineer Trainee

- Worked with heat treatment department team to ensure quality of equipment by monitoring process parameters.
- Continuous Carburizing Furnaces
- Batch Type Carburizing Furnace
- Induction Hardening Machines
- Tempering Furnace
- To get desired properties of end product we also ensure cleaning (sand and iron shots) and quenching (oil) process.

Millat Equipment Limited July 2023 Jan. 2024

Quality Assurance Engineer

- Worked with quality assurance team to ensure hardness of soft product as well as hardness and metallography of hard product.
- Rockwell Hardness Tester
- Microvicker Hardness Tester (Indentec, UK)
- Brinell Hardness Tester (ZWICK/ROELL, INDENTEC, UK)
- Microscope (Leica, Japan) Microstructure Analysis, Magnification upto 1000X

ACADEMIC PROJECTS

- Tool Shape and Speed Effects on Aluminium 6061-T6 Friction Stir Welding
- Optimization of tool design and rotational speed in friction stir welding of aluminium 6061-T6 to achieve superior mechanical properties and weld integrity.
- Effect of Environmental and Sewerage Gases on Soldering Materials

EDUCATION

Bachelors Degree in Materials and Metallurgical Engineering 2020 - 2024

Institute Of Metallurgy and Materials Engineering University of the Punjab Lahore , Pakistan
Certifications Certificate Of Registered Engineer In Pakistan Engineering Council (PEC)
Registered Professional Engineer(PE) : Licence Course Study of Health and Safety at IOSH Acedmy.
