Summary

As a Calibration Technician at GLORY TECHNOLOGY CALIBRATION&INSPECTION CO, I ensure the accuracy and precision of the measurements taken using various instruments, meters, gauges and other testing and measuring equipment. I perform calibration, routine inspection, testing, maintenance and repair of this equipment, following the highest standards of quality and safety.

Before joining GLORY in March 2023, I worked as an Instrumentation Technician at BPCL Kochi Refinery for six years, where I repaired, maintained, calibrated, adjusted, and installed the dials, sensors and other instrumentation that measures and controls machinery in industrial and commercial plants. I have extensive experience and knowledge in working with petrochemicals, solenoid valves, O&M, and other related field. I hold a Diploma of Education in Instrumentation Technology from Kerala board of public examination, which I completed in March 2017. I am passionate about learning new skills and technologies, and I always strive to deliver high- quality results and customer satisfaction.

Experience

Calibration Technician

- Testing and Calibration of Electrotechnical, Thermal, dimensions. Mechanical & Mass, Volume measuring instruments. Hands on experience of NABL documents as per ISO /IEC – 17025.
- Performing Electro-technical, Thermal & Pressure Instruments calibration.
- Also Prepare to Calibration Certificates on Excel software.
- Hands on experience of Photometer Anemometer, Aerosol Generator, Particle Counter etc.
- Hands on experience of MSOffice (MSWord, MS. Excel).
- Knowledge of Compressed Air Validation.
- Hands on experience of Sensor RTDs (Pt-100), Thermocouple (K, J, S, N, R Type) Proximity Sensors etc.
- Knowledge of Temperature Transmitter with analog signal (4- 20mA).
- Knowledge of Pressure Switch, Pressure Transmitter (4-20mA) analog signal, Temperature Indicator (4- 20mA) analog signal.
- To Manage a team of Calibration Engineer & Also Manage Site.
- To Meet New Company Tell Them About Company Services.
- Resolve All the Customer queries Regarding Services & Quotation

Instrumentation Technician

BPCL Kochi Refinery

Jul2017-Mar2023(5years9 months)

- Conduct tasks related with maintenance and operation steam.
- Develop and execute preventative maintenance programs.
- Conduct instrumentation evaluation and trouble shooting for electrical, pneumatic, electronic as well as programmable logic control (PLC) systems.
- Assist planning plus operations staff to identify skills and resource needed to complete planning and reactive work activities.
- Ensure to commission instrumentation effective following with repair and replacement.
- Ensure conformance with environmental and safety requirements commensurate with executing required instrument maintenance or replacement activities.

Education

SKHSS ANANDAPURAM, THRISSUR, KERALA

Government Poly technic college KORATTY, THRISSUR, KERALA, Instrumentation Technology/Technician

Licenses & Certifications

CERTIFICATE OF APPRENTICESHIP TRAINING - BPCL Kochi Refinery

Issued Feb 2018 - Expires Feb 2019

INSTRUMENTATIONTECHNICIANAPPRENTICE

Skills

- Petrochemicals
- Solenoid Valves
- O & M
- Testing
- Distributed Control System (DCS)
- Pneumatics
- Control Valves
- Programmable Logic Controller (PLC)
- Planned Preventative Maintenance
- Calibration
