SUMMARY

As a skilled Mechanical and NDT Inspector, I have broad experience in UT, RT, MT, PT, and corrosion inspection across NEOM and Aramco projects. I hold a Diploma in Operations and specialize in compliance, safety, and mechanical quality. I effectively lead inspection teams and ensure seamless coordination with clients. My work is rooted in precision, safety, and technical excellence. I consistently deliver accurate reporting and reliable results.

EXPERIENCE

Testing Equipment Specialist Team | NEOM Project | Dammam, Saudi Arabia

Mechanical Inspector | July 2022 – Present.

- Perform detailed mechanical inspections per industry and client standards.
- Lead inspection team and oversee daily welding and lifting inspection tasks.
- Coordinate with clients and project teams at the NEOM site for equipment evaluation.

SOGEC | Dammam, Saudi Arabia

NDT Inspector | December 2016 – June 2022.

- Conducted NDT methods on pressure vessels, tanks, and exchangers.
- Led a team of NDT technicians for in-service inspections of industrial assets.
- Ensured compliance with company specifications and Saudi Aramco standards.

Rowan Companies | Al Khobar, Saudi Arabia

Student Counselor | August 2016 – October 2016.

- Participated in deck and drilling support tasks under supervision.
- Assisted in general rig operations, including cleaning, maintenance, and equipment handling.
- Received Basic H2S Training and Basic Offshore Safety Induction Emergency Training (BOSIET).

Rawabi Holding Group | Al Khobar, Saudi Arabia

NDT Inspector | August 2016 – October 2016.

- Used UT, RT, PT, and MT methods to assess material integrity.
- Ensured inspection documentation met regulatory requirements.
- Performed NDT on a wide range of industrial components and assets.
