

SATHYANARAYANAN RESUME

SUMMARY:

An Unique blend of Quality & Expediting Management Specialist with 25 years of Quality Assurance / Control & Lead inspection/expedition experience, including test planning, implementation, and execution in manufacturing and construction of pressure vessels, columns, storage tanks, plant-shutdown, pipeline, and steel structures. Talented in performance testing and bench marking and competent in multiple scripting languages. Excellent performer at quickly identifying high-level test strategies and problems.

I am a results-driven management candidate with 25 years of Construction, Process & Quality operations to implement and oversee with Quality policies and procedures. I hereby ensure that the company products and processes will sure meet the highest standards across through the global operations through audits, training, data analysis and continuous improvement initiatives.

LOCATION KHOBAR, KSA

VISA Company Transferrable

EDUCATION Bachelor of Engineering (BE) Mechanical
Diploma in Mechanical Engineering (DME)

PROFESSIONAL QUALIFICATIONS

- ✓ Project Management Professional, PMP # 3141041 (SEP 2027)
- ✓ X Saudi Aramco Approved Vendor Inspector
SAP # 80001409, Structural Steel (QM#15) & Pressure Vessel (QM#30)
- ✓ QMS Lead Auditor, IRCA ISO9001: 2015, INDQM-223149.
- ✓ NACE Coating Inspector Level-2, CIP # 10206
- ✓ AWS CWI, Certificate # 03011401
- ✓ ASNT NDT Level 2 - MT, RT, UT & PT Certificates
- ✓ Fire Fighting & First Aid Training
- ✓ Helicopter Underwater Escape Training & Sea Survival Training.

EQUIPMENTS Pressure Vessels, Drums, Towers, Coolers, Columns, Tanks, Scrubbers, Strippers, Condensers & Structural Steel.

CODES/STANDARDS/ PROCEDURES AWS, ASME Sec VIII Div.1, ASME Sec V, ASME Sec IX, SSPC, Saudi Aramco and SABIC.

PROFESSIONAL CREDENTIALS PMI-PMP, Lead Auditor, ASNT Level-2 in UT, RT, MT & PT.

SATHYANARAYANAN RESUME

Key Responsibilities were performed at the below assignments

- ✓ Implemented QA best practices and quality initiatives aligned with the company standards.
- ✓ Promoted a quality-driven culture and ensured a compliance with international and local quality regulations.
- ✓ Driven the quality improvements using Lean Six Sigma to enhance defect rates, first pass efficiency, and reduce rework.
- ✓ Conducted comprehensive Quality and Technical audits at vendor & company functions
- ✓ Lead root-cause analysis, implement corrective/preventive actions, and monitor their effectiveness.
- ✓ Ensure implementation of latest technologies at required quality levels.
- ✓ Maintained by updating Company Quality Manual and QMS procedures.
- ✓ Ensured compliance with ISO, API, and all other industry standards.
- ✓ Reviewed non-conformities, customer complaints & establish corrective actions.
- ✓ Performed trend analysis on audit findings and site failures.
- ✓ Conducted customer satisfaction surveys and develop improvement plans.
- ✓ Lead and motivate Quality Engineers across locations.
- ✓ Planned and conducted QMS training and awareness sessions.
- ✓ Maintained training compliance and documentation.

I am a forward-thinking Project Management professional, with a successful track record of delivering significant results through top industry customers follows

1. MA'ADEN PHOSPHATE 3-PHASE 1 as Client Inspector for the ALLOY TOWERS.
2. CRCC-SAMA / JCDC for Jeddah Stadium and Surrounding Villages as Contractor Inspector for the Metallic & Non-Metallic products inspection
3. Tecnimont / Advanced PetroChemicals Project, Jubail as Client Representative for the inspection & expedition of Vessels, Drums, Towers, Coolers, Columns, Tanks, Scrubbers, Stripers & Condensers.
4. Lucid Motors Factory, KAEC, Rabigh with Al-Bawani Construction Company as Structural & Architectural Inspector / Expeditor.
5. Tecnicas Reunidas, Spain as client Representative at Zhangjiagang Furui Special Equipment Co. Ltd. (Furui), Zhangziangang, China as for the inspection & expedition of Vessels, Columns, Tanks, Scrubbers, Stripers & Condensers for the projects of SADARA (KSA), YARA (AUSTRALIA) & KEMYA (KSA) for more than 30 Pressure Vessels.
6. EPCM for PROJECT WAVE - C3B with M/s. Archidon as Client Inspector for Roto-Lining POST-LINING INSPECTION FOR LINED CARBON STEEL SPOOLS / FITTINGS Inspection

KSA Mobile: +966 568616219

Email: sathyamechl@gmail.com

SATHYANARAYANAN RESUME

7. M/s. GMA Al - Salmeen Quality Control Services, UAE for Al-Fujairah Water Project of Technip Germany & Detuchese Babcock., Abu Dhabi.
8. Saudi Aramco Refineries such as Khursaniyah Gas Plant Project, Berri Gas Plant Expansion Project & Yansab Olefins Project with M/s. Technip Italy.
9. Amec Spie at Georgia for BTC Pipeline Project AGT (Azerbaijan-Georgia-Turkey)
10. Dhukan Gas and Oil Pipelines & Doha Petroleum Trading and Construction (DOPET) Projects
11. Dubai Supply Authority (DUSUP), Dubai for Additional Pipelines & Arabian Canal Projects at Jindal Saw Ltd (Pipe mill)
12. SGS Italia for Integrated Power Plant – WP5 Project, Djeno with M/s. ABB Congo, Pointe Noire, Congo.

PROFESSIONAL EXPERIENCE:

MAR 2023 – Till now:

As MECHANICAL INSPECTOR / EXPEDITOR & LEAD AUDITOR with Mermaid General Contracting Company, DAMMAM, KSA

1. MA'ADEN PHOSPHATE 3-PHASE 1 as Client Inspector for the ALLOY TOWERS.

2. CRCC-SAMA / JCDC for Jeddah Stadium and Surrounding Villages as Contractor Inspector / Expeditor for the Metallic & Non-Metallic products.

SATHYANARAYANAN RESUME

3. Marie Tecnimont / Advanced Petro Chemicals Project (Advanced Polyolefins), Jubail as Client Representative for the inspection & expedition of Vessels, Drums, Towers, Coolers, Columns, Tanks, Scrubbers, Stripers & Condensers.

4. Lucid Motors Factory, KAEC, Rabigh with Al-Bawani Construction Company as Structural & Architectural Inspector / Expeditor.

SATHYANARAYANAN RESUME

- Coordinating Expeditor visits vendors, verify supplies, manage supply requisition and communicate with suppliers to determine expected delivery dates and inform Client Project managers of potential neck delays
- Coordinating Inspectors / Suppliers involves at different phases of Fabrication, Hydro test, Welding/Painting inspections were performed on 57 items of Stainless Steel & Carbon Steel based Static equipment, including heat exchangers, columns, and pressure vessels.
- Expediting & Inspections involves at different phases of Fabrication, Welding/Painting inspections were performed on 2 items of Stainless Steel Static equipment for MAADEN / WORLEY.
- Inspections were performed at various stages of the fabrication process for the shell and tube type heat exchangers and the high pressure blow down vessels with external coils and jackets fit-ups.
- Work with different heads of department to monitor inventory levels, assess supply vendors and ensure delivered supplies meet quality standards.
- Contact vendors, place orders, verify supplies, manage supply requisition and communicate with suppliers to determine expected delivery dates and inform Project Managers of potential delays.
- Maintain production schedules for ongoing projects, assign materials and Crew Members to reduce cost, boost productivity and prevent delays that can affect delivery.
- Ensure interdepartmental communication for improved coordination of productive operations.
- Monitoring the project QA/QC activities at the vendor's fabrication shop. Inspection of Raw Materials, traceability, fit up, dimensions, welding, NDT.

Quality Management Systems (QMS) implemented with the below companies:

- AL NAJIM SAUDI INTERNATIONAL Co. Ltd., Dammam & Jubail for their Valve Services Division (NASICO-VSD).
- MIDDLE EAST ELITE FIBERGLASS FACTORY, (MEFGCO) Dammam for their Manufacture & Supply of Fiberglass Aboveground & Underground Storage Tanks production.

Conformance to QMS System complies with ISO 9001, ISO 14001 & ISO 45001 scoring assessment & observation on specific technical assessment/ feedback on Key Personnel's during various audit interactions which leads to Good manufacturing practice.

Verified structured framework of processes, procedures, and responsibilities designed to ensure consistent quality in an organization's products & services which enhanced their customer satisfaction.

SATHYANARAYANAN RESUME

Supports data-driven decision-making which facilitates continuous improvement. Auditing of Streamlines operations which reduces redundancies & improves efficiency.

Vendor Pre-Award Evaluation Audit conducted with the below company:

- AL-NAFIE METAL INDUSTRIES, Jeddah on behalf of IRCLASS Systems & Solutions, Dubai, UAE for SUEZ, UK for their Steel Structures (Heavy, Medium & Light Sections) factory, Storage Tanks & Static Equipment industry.

To qualify the vendor, the following qualifications such as vendor's timeliness in delivering the product to the customer, the quality of the product delivered, the competitiveness of price, the quality of the services available, the rating of credits, financial conditions, the reputation of company, the expertise of the staff working in the company, etc. were audited & performances were satisfactory.

APR 2022 – FEB 2023:

As MECHANICAL SITE EXPEDITOR with HARRIS PYE, KSA for fired heaters of refineries like petrochemical and chemical industries & Boilers maintenance, etc. at LUBEREF, SASREF & SAMREF Turnover.

- Monitor project delivery timelines, check work quality against company requirements and specifications and ensure compliance with regulations.
- Collaborate with Project Managers for updates on delivery timelines.
- Compile, record and report project performance and progress to management and key stakeholders.
- Growing professional relationships with various internal and external stakeholders.

DEC 2014 – MAR 2022:

As MECHANICAL INSPECTION / EXPEDITION ENGINEER with ERAM INTERNATIONAL for Inspection / Expedition in Welding & Coating of various project with different vendors for Pressure Vessels, Columns, Structural Steel, Pipeline Manufacturing, Tower Inspections, Plant Structures & PE-GRP at Saudi Aramco's project in entire KSA's Eastern & Western region.

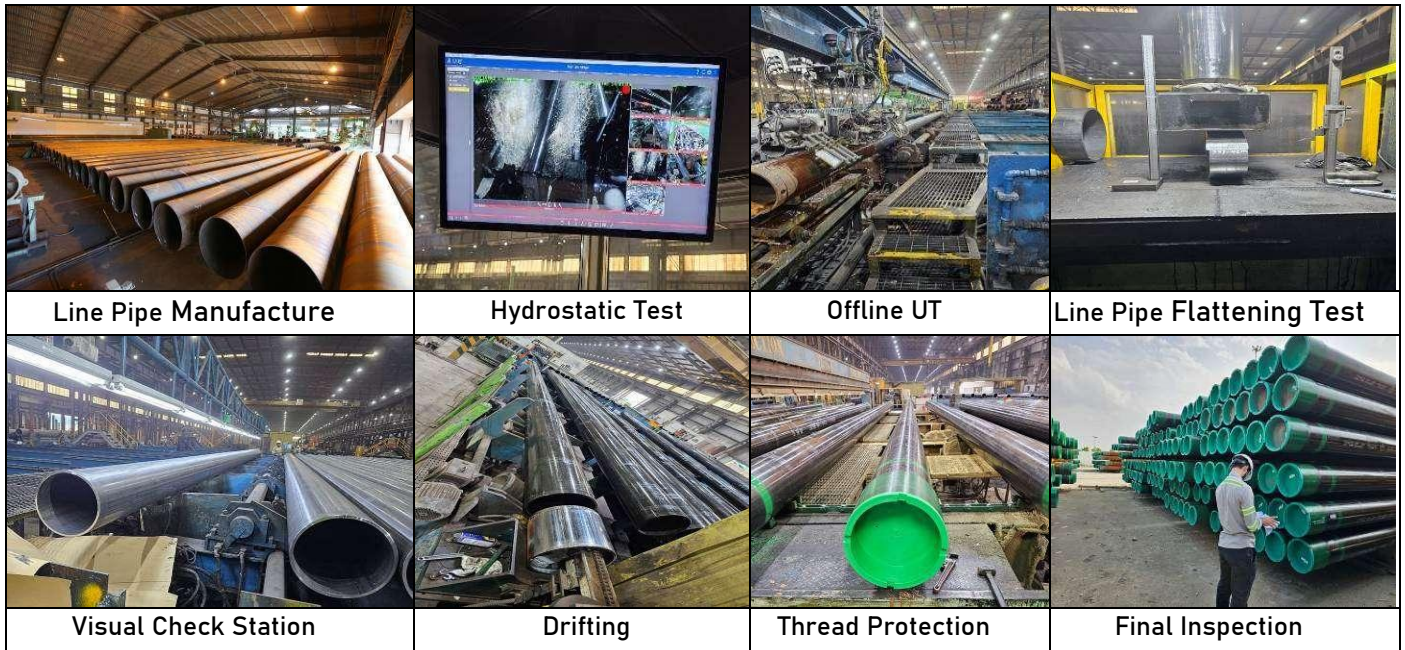

SATHYANARAYANAN RESUME

- Monitoring & Implementing the project QA/QC activities at the vendor's fabrication shop. Inspection of Raw Materials, traceability, fit up, dimensions, welding, NDT.
- Monitor Vendors progression, engineering, manufacturing and reporting status of activities within timely progress feedback to the Quality / Procurement / Project Manager. Reviewing the project vendor documents & ensuring compliance with the contractual requirements. Verifying shipment authorization as IRC & Witness shipment transfers.
- Collaborating with project management to prepare for project review meetings & Liaising with vendors to ensure timely delivery of goods.
- Receiving shipments of materials, and examining deliveries to ensure accurate quantities, quality and specifications.

DEC 2013 – MAR 2014:

As VENDOR MECHANICAL INSPECTION / EXPEDITION ENGINEER with TECNICAS REUNIDAS, Spain *for* Inspection / Expedition Expediting services @ China's Vendor Zhangjiagang Furui Special Equipment Co. Ltd. (Furui), Zhangziangang, China as Tecnicas Reunidas Client Representative for the inspection & expedition of Vessels, Columns, Tanks, Scrubbers, Stripers & Condensers for the projects of SADARA (KSA), YARA (AUSTRALIA) & KEMYA (KSA) for more than 30 Pressure Vessels.

- Collaborating with project management to prepare for project review meetings.
- Liaising with vendors to ensure timely delivery of goods.
- Receiving shipments of materials, and examining deliveries to ensure accurate quantities, quality, and specifications.
- Facilitating flow of materials between various departments and parties.
- Examining job cost reports for inconsistencies, such as mischarges.
- Meeting and collaborating with management to assess reliability of suppliers and vendors, and to identify solutions for ongoing problems.
- Following established guidelines, instructions, policies and procedures.

JAN 2006 – NOV 2013:

LEAD VENDOR INSPECTOR / EXPEDITOR - MECHANICAL

As VENDOR MECHANICAL INSPECTION / EXPEDITION ENGINEER with the following clients for Inspection / Expediting projects

- Technip Italy SpA, Saudi Arabia: (Khursaniyah Gas Plant & Yansab Olefins Project)
Monitoring and Co-ordinating team of inspectors / expeditors in Welding and Coating of various project with the KSA vendors of Zamil Steel Industries for GRE, Amiantit Fiber Glass Industries Limited for RTR Pipe fabrication, Hidada Steel & Arabian International Company for Structural Steel, Al Zamil Heavy Industries for Pressure Vessels, Columns, Plant Structures, Gratings & PE-GRP pipes.

SATHYANARAYANAN RESUME

- **SGS Italia, S.p.A, Italy:**
Performed as Vendor Inspector for Integrated Power Plant – WP5 Project, Djeno at ABB Congo, Point Noire, Congo as Final Certification and Documentation check for Steel structures of pipe rack erection, Installed Static Equipment, Fixed roof tanks and Hydro test packages.
- **DUBAI SUPPLY AUTHORITY (DUSUP), Dubai:**
Senior Coating Inspector with for Additional Pipelines & Arabian Canal Projects at Pipe Mills of Jindal Saw Ltd, Gujarat.
- **Oceaneering OIS WLL, UAE:**
Performed as Mechanical Inspector / Expeditor with M/s. SBM Offshore / Chevron for FPSO Frade Ship Conversion at Dubai Dry-Dock and NPCC at Pipe Lay Barge (PLB) 648 for Marsek Oil in Al-Shaheen Field, Qatar Offshore.

JAN 2000 – DEC 2005:

- **ANABEEB:** Performed as a QA/QC Inspection Engineer for their SABIC Turnarounds.
- **AMEC SPIE:** Performed as QA/QC Inspector at GEORGIA for BTC Pipeline of 250km of 46" Oil and 42" Gas pipeline through Azerbaijan – Georgia – Turkey.
- **GAMA AL-MOSHEGAH ARABIA LTD., KSA:** Performed as QA/QC Inspection Engineer for Berri Gas Plant Expansion Project for Technip Italy Spa.
- **AL-FUJARIAH WATER PROJECT, TECHNIP GERMANY:** Performed as QA/QC Inspection Engineer at Vendor workshop Deutsche Babcock LLC, Abu Dhabi, UAE.
- **QGPC (Qatar General Petroleum Corporation) DOPET. CCC (Raslaffan LNG Project), Qatar:** QC Inspector for Dukhan Gas and oil Pipelines corrosion testing with, QATAR for DOPET Projects.

SATHYANARAYANAN RESUME

Responsible for the testing of pressure vessels, transition and on-plot piping systems on various contracts and sites within Qatar. Ultrasonic testing of piping and vessel integrity. Radiography using Gamma isotopes, MPI and DPI also carried out. Interpretation of radiographic films and evaluating test results. Inspection & Test reports completed for submission for inspection programs.

- H.A.HUSSEINI INSPECTION Co., HAINSCO, SAUDI ARABIA: Performed as QC Inspector in for SAUDI ARAMCO's GOSP, Refineries & Al-Bayroni (SAMAD) 2-EH inspecting Plant Shutdown & Maintenance.
- LARSEN & TUBRO LTD. (L&T-ECC), FABRICATION SHOP, CHENNAI, INDIA: QC Supervisor for the steel fabrication of these projects of M/s. Binani Cement Plant & M/s. Bokaro Steel Plant. Non-Destructive Examination on welds of Pressure Vessels, Furnace Tubes and Process Piping.
- LARSEN & TUBRO LTD. (L&T-ECC), MUMBAI, INDIA: Performed as QC Inspector for PSL Holdings Ltd., Pipe Mill Division, Daman (Union Territory), India performing Spiral Welded Pipe Inspection & NDT reports review.
- Betz Engineering & Technology Zone (BETZ), Chennai, India: QC Inspector with Almonard Fans Ltd. & Indian Additives Ltd., Chennai.
- Sonic Inspection Services Ltd., Chennai, India: Performed as NDT Inspector for Bellary Power Station EPC project, Bellary, Karnataka.
- Kalpakkam Nuclear Power Station, Kalpakkam, Tamilnadu & Chennai Petroleum Corporation Limited (CPCL):
Performed as QA/QC Inspector working as QC Inspectors control, ITP & QC Dossier Preparation.
- Industrial Quality Concepts, (IQC) Chennai, India:
Performed as QA/QC Inspector with the Project Clients involved with Kothari Sugars and Chemicals Ltd., EID Parry (India) Ltd., Chennai; Rashtriya Chemicals & Fertilizers Ltd., Maharashtra, India.
