JOB RESPONSIBILITIES

- Supervised and managed quality control processes for procured materials, ensuring compliance with company standards and industry regulations.
- Conducted inspections and audits of incoming raw materials, components, and finished goods to verify quality and adherence to specifications.
- Collaborated with suppliers and procurement teams to resolve quality issues, implement corrective actions, and improve supplier performance.

- Developed and maintained quality control documentation, including inspection reports, non-conformance reports (NCRs), and supplier scorecards.
- Led a team of QC inspectors, providing training, performance evaluations, and workflow prioritization to ensure efficiency.
- Monitored supplier quality metrics and worked closely with vendors to enhance product quality and reduce defects.
- Ensured compliance with ISO, other relevant quality management systems.
- Investigated root causes of quality deviations and implemented preventive measures to minimize future risks.
- Coordinated with cross-functional teams (Procurement, Production, Logistics) to maintain seamless quality assurance throughout the supply chain.
- Stayed updated on industry best practices and regulatory requirements to improve QC processes continuously.
- Prepared and reviewed Pre-Qualification Documents (PQD) for vendor/material approval.
- Conducted pre-inspection meetings and arranged necessary documentation for materials.
- Ensured the use of updated materials category lists at project sites.
- Maintained and tracked Long Lead Materials lists, PQDs, Material Approval (MAT), and Purchase Orders (POs) for quality records.
- Analyzed and prepared Material Technical Submittals for proposed project items.
- Prepared Technical Comparison Sheets for materials/equipment, ensuring compliance with project specifications, IFC drawings, and shop drawings.
- Prepared Inspection Assignment Packages (IAP), including approval sheets, checklists, purchase orders, material requisitions, technical specs, data sheets, drawings, ITPs, and pre-inspection agendas.
- Ensured proper distribution of inspection assignment packages to relevant teams.
- Coordinated Third-Party Vendor Inspections (TPI) for testing and inspection before material acceptance and delivery.
- Monitored factory inspections during fabrication and arranged necessary inspection requirements.
- Verified inspection coverage for vendor sub-orders and ensured compliance with the Quality Plan.
- Expedited inspections and material deliveries to meet project timelines.
- Prepared and submitted weekly fabrication reports to clients.
- Assisted QC inspectors in documentation to ensure all inspections were recorded accurately.
- Communicated with inspectors to ensure findings were properly addressed in reports.
- Liaised with Project Procurement Managers/Engineers to coordinate inspections and resolve quality issues.
- Corresponded with vendors regarding material inquiries, requirements, and acceptance criteria.
- Ensured all procurement activities adhered to quality standards and procedures.
- Monitored vendor selection processes to maintain compliance with project requirements.
