

Asmat Ullah Khan

Mechanical Engineer | MEP | HVAC | Fire Protection | P. E | SEC | SCE | +966563928865 | asme816@gmail.com |

PROFILE

A seasoned engineer with 15 years plus experience that have led Mechanical projects – HVAC, VRF, Firefighting, Fire Protection, Plumbing, Water drainage system, Gas pipeline accompanied by planning, cost estimation, Design review, material/equipment submittal, approvals, Material inspection, MIR/RFI, construction, execution, testing and commissioning. Proficient in National & international codes & standards like SAES, NFPA, IFC, ASHRAE, SMACNA, and IPC vital for project standardization. Adept in project management, ensuring leadership, organization, communication, budget management, technical proficiency, and conflict resolution.

SKILLS

- Design & review HVAC, Plumbing, Fire Protection and Fire suppression Systems.
- Heat load calculation. HAP, Duct sizer, pipe sizer psychrometric analyser.
- FLS Codes & Standards Compliance (NFPA, SBC, IBC, IFC)
- Acquaintance with SAES, ASHRAE, SMACNA
- AutoCAD, Revit, MS office, Fire Dynamics Simulator (FDS)
- Fire Risk Assessment & Hazard Analysis
- Technical Specifications & Material Submittals, Approvals.
- Coordination with AHJs and Regulatory Authorities
- Construction Supervision & Quality Control
- Testing, Commissioning & Troubleshooting

EXPERIENCE

❖ Tareg Al Jaafari Contracting – Saudi Arabia

Position: Mechanical Engineer/ Fire Protection & HVAC | Mar 2024 – Present

Job Responsibility:

- Supervise HVAC, Fire Protection, and Plumbing works.
- Supervise & commissioning of EOT crane.
- Ensure compliance with NFPA and SEC standards during execution & Client satisfaction.
- Ensure the quality through Project Quality Plan.
- Design Review
- QMS Audit & Compliance.

Key Projects:

- CN4400018750 – Bedaie 115/13.8kV Substation.
- CN4400018709 – Anood-2 115/13.8kV Substation.
- CN4400007051—Saihat 115/13.8KV Substation.

❖ Sabaat Engineering & Services – Pakistan

Position: Mechanical Lead Engineer/ Fire Protection & HVAC Jan 2018 – Dec 2023

Job Responsibility:

- Design Review, Execution and supervision of HVAC, fire alarm, firefighting, and Plumbing systems.
- Conducted Material Inspection Requests (MIRs), RFIs, and code compliance reviews.

- Ensure the quality through Project Quality Plan.
- QMS Audit & Compliance.

Key Projects:

- Mother & Child Hospitals (200 Beds). Mianwali – IDAP Pakistan Chilled Water System.
- Mother & Child Hospitals (200 Beds). Attock – IDAP Pakistan Chilled Water System.
- National Defence University – Fire Protection System & Chilled water System.
- CMH Kharian & Oncology CMH Rawalpindi – Air cooled Chiller & Fire Alarm Installation.

❖ Fazal Malik & Co – Pakistan

Position: Mechanical Lead Engineer/ Fire Protection & HVAC Engineer | Apr 2013 – Dec 2017

Job Responsibility:

- Execution and supervision of fire sprinkler, fire alarm, and HVAC systems.
- Design Review, technical submittal, material specifications, and installation procedures.

Key Projects:

- Polyclinic Hospital Islamabad – HVAC & Fire Protection
- PIMS Urology – Fire Protection & Plumbing
- Cantonment Hospital Rawalpindi – HVAC & Firefighting

❖ Global Fire Control Services – Pakistan

Position: Mechanical Engineer/ Fire Protection & HVAC Engineer | Aug 2009 – Mar 2013

Job Responsibility:

- Execution and supervision of Fire Alarm, and Fire Protection systems for commercial and institutional projects.
- Quality assurance.
- Design compliance with relevant Standards & Codes.

Key Projects:

- Allied Bank Building Islamabad – HVAC & Fire Protection
- OGDCL Islamabad – Basement Firefighting & Exhaust System
- Imtiaz Super Mall Jhelum – HVAC & Plumbing

❖ Jawwad & Waqqas (Pvt.) Ltd. – Pakistan

Position: QA/QC Engineer | Jan 2006 – Jul 2009

Job Responsibility:

- Quality control of raw material & finished products.
- Inspection & Testing coordination.

❖ Newage Cables (Pvt.) Ltd. – Pakistan

Position: QA/QC Engineer | Apr 2004 – Dec 2005

Job Responsibility:

- Conduct internal quality audit.
- Inspection, Testing & calibration.
- Quality control of raw material & finished products.

Training & CERTIFICATIONS

- HVAC Design – National Institute of Design & Analysis, Pakistan.
- ISO 9001: 2015 Lead Quality Auditor
- AutoCAD, Microsoft Office Suite, MicroStation
- Saudi Aramco Engineering Standards (SAES-K-001, K-002, K-003)
- NFPA Standards (Fire Protection & Life Safety Systems)
- ASHRAE & SMACNA Guidelines

EDUCATION

- B.Sc. (Engineering) Metallurgy and Materials Engineering.
Institute of Chemical Engineering & Technology Punjab University-Lahore Pakistan.
- M.Sc. (Engineering) Metallurgy and Materials Engineering.
College of Engineering & Emerging Technologies. Punjab University-Lahore Pakistan.

Professional Affiliation:

- Saudi Council of Engineers – Membership # 1040513.
- Saudi Electric Company (SEC) Approval as Mechanical Engineer.
