PROFESSIONAL EXPERIENCE

Contracts and Procurement Manager - Operation and Maintenance dept.

2022 – Present

Pharaonic Petroleum Co. (PhPC) – British Petroleum (BP) JV, Cairo, Egypt

- Manage the end to end procurement cycle with an annual procurement spend of \$10M for critical and strategic spare parts including rotating equipment , pressure vessels, Valves ...etc, ensuring zero production interruptions during 24/7 plant operations.
- Currently spearheading a complex renewal process for high-value contracts, utilizing data-driven commercial evaluations to balance immediate cost avoidance with long-term supply chain resilience.
- Develop and execute annual procurement and contracts strategies, ensuring alignment with overall company objectives.
- Enhance procurement team efficiency through performance tracking, gap analysis, and targeted improvement initiatives.
- Produce actionable reports on PR/PO, tenders processing, supplier performance, and inventory optimization for executive decision- making.

Achievements:

- Accelerated procurement cycle by eliminating workflow bottlenecks and standardizing bidding documentation, resulting in a 3-week reduction in average tender turnaround time.
- Mitigated market volatility by establishing 15 long-term strategic agreements with Tier-1 specialized services contractors to avoid Non-Productive Time (NPT) at the plant including Turbomachinery maintenance (Solar Turbine), non-destructive testing (Schlumberger) , wellhead maintenance (OSS), and industrial coating (SeaHarvest), securing fixed rates for critical commodities and services that resulted in a 15% cost avoidance against rising market indices.
- Managed a \$10M MRO (Maintenance, Repair, and Operations) inventory, identifying critical spares for offshore/onshore assets to minimize 'Stock-Out' risks.
- Developed a "Vendor Risk Matrix" that prioritized suppliers based on financial health and geopolitical risk, ensuring zero supply chain disruptions.

- Led end-to-end procurement cycle including (RFQ,RFI&Tenders) for 3 high-value CAPEX projects , ensuring 100% alignment with corporate governance.
- Managed and negotiated complex contracts, including EPIC agreements with global contractors (Technip Energies , Saipem & Subsea7).
- Managed contract variations and change orders to handle Scope Creep, ensuring all additions to project scope were technically justified and competitively priced.
- Conducted quarterly performance reviews (QPRs) with EPIC contractor, utilizing data-driven dashboards to improve service efficiency by 100%.

Achievements:

- Directly managed the \$300M CAPEX procurement and contract lifecycle for a dual-scope portfolio (2 Offshore Platform installation & 1 Onshore Processing Plants). Optimized the supply chain by consolidating high-value equipment orders and long-term strategic agreements, resulting in a \$4M total cost reduction and 0 days of Non-Productive Time (NPT).
- Established a Contractor Scorecard System that linked monthly payments to specific KPIs; improved service delivery quality by 20% and reduced safety incidents by holding underperforming vendors accountable through formal Notice to Cure protocols.

Contracts and Procurement Team Leader - Drilling operations

2011 – 2016

Pharaonic Petroleum Co. (PhPC - British Petroleum BP JV), Cairo, Egypt

- Led end-to-end procurement for multi-million dollar (\$120M) three drilling offshore exploration campaigns over 5 years, ensuring 100% availability of critical equipment including Subsea Trees, Wellheads, and HPHT (High-Pressure/High-Temperature) tools.
- Managed 25 drilling contracts using LOGIC standards for rig hire, cementing, and wireline services, implementing robust indemnity and "knock-for-knock" clauses to limit company liability.
- Sourced a global vendor base of Tier 1 oilfield service companies (e.g., Weatherford, Schlumberger, Baker Hughes, Halliburton) to support deepwater drilling operations.

Achievements:

- Successfully resolved \$5M in disputed commercial claims related to equipment downtime , loss in hole and liquidated damages, saving the company 15% in potential losses.
- Conducted quarterly performance reviews (QPRs) with major drilling contractors, utilizing data-driven dashboards to improve service efficiency by 98% compliance with SLA response times .
- Directed complex international logistics and Incoterms strategies to ensure the "Just-in-Time" delivery of equipment to remote rig sites, maintaining zero "Rig Down" incidents due to supply failure
