EDUCATION

August 20015 To March 2019

Rajasthan Technical University RTU Kota Rajasthan India

Bachelor's Degree in Mechanical (Production) engineering

PROJECT'S

1. Fabrication & Erection of Cement Plant 10,000 TPD

Client : Easter Province Cement Company (EPCC)

Jubail

Consultant : Astroplant

2. Fabrication & Erection of Batching Plant

Client : EPCC

Consultant : Astroplant

3. Structural Steel Fabrication for Buildings

Client : China State

4. Fabrication of Silo, Conveyor's, Elevators Etc

Client : L & T

- Manpower and equipment coordination & handling.
- Material management for fabrication work.
- Good knowledge of engineering drawings.
- Assist Subcontractors for steel fabrication.
- Make BOQ (Bill of quantity) by drawings.
- Follow up the daily site work.
- Collaborate with cross-functional teams to develop steel components & assemblies according to project specifications.
- Coordinate with procurement teams to ensure timely delivery of materials and equipments on site.
- Ensure that labour, equipments and materials are available as needed for various project phases.
- Knowledge of installation, fittings, erection & welding work.
- Fabricate products within set tolerances to a high standard following engineering drawings.

MARCH 2019 - SEPTEMBER 2021

Artasia Jaipur Rajasthan India, Mechanical Engineer

Key Responsibilities

- Planning, Execution & inspection of fabrication work.
- Monitor & Supervise mechanical team & fabrication work.
- Ensure that labour, equipments and materials are available as needed for various project phases.
- Fabricate products within set tolerances to a high standard, following engineering drawings.
- Coordinate with the procurement team to ensure timely delivery of materials & equipment.
- Manpower and equipment coordination & handling.
- Coordinate with client & other disciplines of company.
