Metallurgy / Quality Control Engineer

Mechanical Engineer with more than 7 years of experience in manufacturing, metallurgy testing, and quality control within heavy engineering industries. Experienced in material testing, hardness testing (Brinell, Vickers, Rockwell), metallurgical sample preparation, and ASTM standards. Skilled in destructive and non-destructive testing, inspection of forged steel fittings, and supporting third-party inspections. Currently working in Saudi Arabia with strong knowledge of materials testing and laboratory quality systems.

Professional Experience

QC Inspector – Erne Fittings Middle East, Saudi Arabia (Mar 2023 – Present)

- Perform metallurgical sample preparation for tensile, impact, and hardness testing.
- Conduct hardness testing using Brinell, Vickers, and Rockwell methods.
- Inspect forged pipe fittings including elbows, tees, and reducers.
- Ensure compliance with ASTM standards (ASTM A370, ASTM A751).
- Perform pre-material, in-process, and final inspections.
- Coordinate with third-party inspectors for material approval and certification.
- Maintain calibration records and inspection documentation.

Senior Engineer – Timken Engineering & Research India Pvt. Ltd., Chennai (Apr 2015 – Mar 2023)

- Supervised production and quality assurance of precision bearing components.
- Operated CNC and PLC-based machining processes including grinding and turning.
- Conducted dimensional inspection and process quality checks.
- Performed root cause analysis for production defects.
- Implemented Lean manufacturing tools including 5S, Kanban, and PDCA.

Education

B.E. Mechanical Engineering – SRM University, Tamil Nadu, India (2020)

Diploma in Mechanical Engineering – Govt. Polytechnic College, Kerala, India (2014)

Certifications

ASNT NDT Level II (VT, MT, PT, UT, RT) ISO 17025:2017 Internal Auditor – Testing & Calibration Laboratories Forklift License

Technical Skills

Metallurgical Sample Preparation | Hardness Testing | ASTM Standards | Material Inspection | NDT Methods | Quality Documentation | Third Party Inspection | Calibration Control | CNC Machining Knowledge | ERP Systems | Root Cause Analysis

Availability

Currently working in Jubail, Saudi Arabia and available for immediate transfer within the Kingdom.
