

Abdullah Aamir

Nationality: Pakistani **Date of birth:** 21/09/2000 **Gender:** Male **Phone number:** (+966) 500158024

Email address: abdullahaamir464@gmail.com

LinkedIn: <https://www.linkedin.com/in/abdullah-aamir-4a03981a4>

Work: King Fahd University of Petroleum and Minerals, Dhahran (Saudi Arabia)

WORK EXPERIENCE

Lab Assistant

King Fahd University of Petroleum and Minerals [09/10/2023 – Current]

City: Dhahran | Country: Saudi Arabia

This opportunity has enabled me to have hands-on experience of various equipment like CVD, Sputtering, Raman spectroscopy etc. related to material sciences.

EDUCATION AND TRAINING

MS Materials Science and Engineering

King Fahd University of Petroleum & Minerals [27/08/2023 – Current]

City: Dhahran | Country: Saudi Arabia

B.Sc. Metallurgical and Materials Engineering

University of Engineering and Technology, Lahore [12/10/2018 – 05/05/2022]

Address: G. T. Road, Lahore, Punjab , 54890 Lahore (Pakistan) | Final grade: 3.819/4.0

PUBLICATIONS

[2022]
[Synthesis of Geopolymer from a Novel Aluminosilicate-Based Natural Soil Precursor Using Electric Oven Curing for Improved Mechanical Strength](#)

CONFERENCES AND SEMINARS

[15/03/2022] Lahore, Pakistan
5th International Conference on Energy Conservation and Efficiency (ICECE 2022)
Presented an article entitled "Economical Mass Production of Eco-friendly Natural Soil based Geopolymer Bricks for Construction Application" in CleanTech Idea Competition under banner of ICECE 2022 and won second prize for best paper.

[17/01/2022 – 18/01/2022] Lahore, Pakistan
1st International Conference (Online) TRENDS & RESEARCH IN CHEMISTRY (TRIC 2022)
Presented a paper entitled "Production of Eco-friendly Geopolymer through Alkali Activation of Alumino-silicate Based Natural Soil" at TRIC 2022 organized by Department of Chemistry, University of Education, Lahore.

[28/06/2021 – 28/06/2021] Lahore, Pakistan
2nd International Conference on Advanced Materials and Emerging Technologies (ICAMET-2021)
Presented a paper entitled "Finite Elemental Analysis of Natural Soil based Environment Friendly Geopolymer for Construction Application" in Computational Materials Science (COMP-104) domain organized by Department of Metallurgical and Materials Engineering, University of Engineering and technology, Lahore.

PROJECTS

[05/04/2024 – Current]
Microwave reactor designing for methane pyrolysis for Hydrogen and Carbon production
In this research project, microwave reactor for methane pyrolysis will be designed and operated.

[09/05/2020 – 14/05/2023]

Mechanical properties investigation of natural soil based geopolymers through finite element analysis

In this project, finite element analysis of natural soil (NS) based geopolymers have been done on Abaqus. The novelty brought in this work is the use of NS based geopolymer properties for investigation.

[25/08/2024 – Current]

ReaxFF simulation of methane reforming reaction

Our group is currently working to analyze the influence of different reaction conditions on resultant methane reforming reaction for different catalysts by Reaxff potential.

NETWORKS AND MEMBERSHIPS

[04/11/2024 – Current] King Fahd University of Petroleum & Minerals, Dhahran, KSA

International Students Club KFUPM

Voluntarily serving as "Dorm leader" under ISC of KFUPM.

[23/09/2019 – 05/05/2022] University of Engineering and Technology, Lahore

Character Building Society

Serving as member of "Team Planning and Execution" in "Character Building Society" of UET, Lahore established under the guidance of Government of Pakistan.

HONOURS AND AWARDS

[06/06/2023] King Fahd University of Petroleum and Minerals, KSA

Fully funded International scholarship for MS degree

Won international fully funded scholarship at KFUPM to pursue Masters degree in KSA.

[14/03/2022] Center for Energy Research & Development (CERAD, UET)

Second Prize in CleanTech Idea Competition

Won second prize of worth fifteen thousand PKR in CleanTech Idea Competition under banner of 5th International Conference on Energy Conservation and Efficiency (ICECE 2022) for best paper.

[01/01/2022] National Idea Bank, Pakistan

NIB Provincial Winner 2021

Led the team that secured 3rd position at provincial (Punjab) level in "National Idea Bank Pakistan Competition 2021", under construction sector. The idea submitted was "Eco-friendly Natural Soil based Geopolymers as Construction Material".

[30/11/2021] National Idea Bank, Pakistan

NIB City Winner 2021

Led the team that secured 3rd position at city (Lahore) level in "National Idea Bank Pakistan Competition 2021", under construction sector. The idea submitted was "Eco-friendly Natural Soil based Geopolymers as Construction Material".

[09/04/2019] University of Engineering and Technology, Lahore

Merit based scholarship winner

Awarded merit based scholarship at undergraduate level by University of Engineering and Technology, Lahore.

LANGUAGE SKILLS

Mother tongue(s): Urdu

Other language(s): English (B1 - independent user) | Chinese (HSK level 1)
