PROFESSIONAL INFORMATION:

Designation	: Electrical Specialist (Testing & Commissioning)
Total Experience	: 4.6 years
Experience (UAE)	: 2.6 year
Current Location	: Dubai, UAE
Nationality	: India

CAREER OBJECTIVE:

As a diligent and proficient electrical testing and commissioning engineer, my professional objective is to apply my knowledge to guarantee the secure and effective operation of electrical systems. I wish to assist projects by carefully inspecting, testing, and commissioning electrical installations and equipment to make sure they abide by regulations and industry standards. Using my excellent technical knowledge and analytical skills, I intend to find and address any issues that arise throughout the testing and commissioning process, ensuring the smooth integration and operation of electrical systems. I affirm to achieve project timelines and financial constraints while enhancing performance, dependability, and safety.

EXPERIENCE DETAIL:

A qualified engineering professional with 4.6 years of experience working for respectable companies on a variety of projects including industrial and commercial buildings in the areas of electrical installation, testing and commissioning, and site execution.

Organization	: PR POWER ENGINEERS, Chennai - INDIA
Designation	: Electrical Testing & Commissioning Intern
Period	: May 2019 to June 2019
Organization	: SP Tech Engineering PVT LTD, Chennai - INDIA
Designation	: Electrical Testing & Commissioning Engineer
Period	: July 2019 to August 2021
Organization	: DULAND TECHINCAL SERVICES LLC, Dubai - UAE
Designation	: Electrical Testing & Commissioning Engineer
Period	: September 2021 to Present

EXPERIENCE SUMMARY:

- Oversaw the whole planning and implementation of electrical installation projects, making sure that all deadlines, spending limits, and quality requirements were met.
- Supervised installation crews in the appropriate execution of electrical systems, managing the acquisition of equipment, organizing layouts, and integrating equipment.

- Resolved electrical issues on-site using troubleshooting techniques to discover fundamental causes and execute effective remedies quickly.
- Electrical installations for different systems, including lighting, power distribution, HVAC controls, and security systems, were completed in accordance with appropriate norms and regulations.
- Installation, Testing & Commissioning and Maintenance of Electrical system (LowVoltage).
- Conducted risk assessments and implemented corrective actions to mitigate hazards and maintain a safe working environment.
- Promptly responded to client inquiries, addressed issues, and offered technical direction and support throughout the project lifecycle.
- Prepared extensive project documentation, including installation manuals, as-built drawings, and progress reports, to enable project tracking and assure accountability.
- Strong Experience in Testing and commissioning of LV switchgear ,LV Bus duct, MDB and Capacitor Bank panel.
- Testing and Commissioning of Vertical transport system (MP-Spain, Tromp-Turkey)
- In charge of Preventive maintenance of Elevators.
- Trouble shooting (MP, TROMP, Mitsubishi-Elevators)
- Elevator installation Supervision, Coordination, Scheduling.
- Commissioning and start-up operation of VFD & Starter Panel (Star-Delta, DOL)
- Live Test / loop Impedance testing of Final DB circuits (lighting circuit, Power circuit & etc.)
- Knowledge in Harmonics Analysis of LV system.
- Review & Implementation of approved Discrimination setting as per site condition
- Verification of load schedule and made changes as per site requirement.
- Verification of approved shop drawing & schematics (SLD) and preparation of As-built
- Thermography Testing for LV panels and Busducts.
- Document Submittal (Material Submittal, T & C Submittal, IR Submittal).

PROJECTS HANDLED:

Project	: ONE ZA'ABEEL - TOWER A
Client / Contractor	: Ithra Dubai / Alemco, Dubai
Project	: DANS Interim Facility Maktoum Airport
Client / Contractor	: DAEP/ Emkay, Dubai
Project	: Dubai Airwing-DXB Airport
Client / Contractor	: DAEP/ Al Naboodah, Dubai
Project	: Storm water pump upgradation station
Client / Contractor	: DAEP/Dar Al Handasah , Dubai
Project	:Al Khail Avenue
Client/Contractor	:Nakheel/BK Gulf

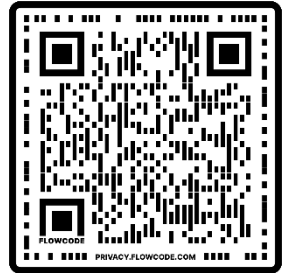

RESPONSIBILITIES:

- Planning, Coordination, execution and documentation of project and site activity
- Preparation of Method statement for every activity
- Participate project meetings and scheduling work based on priority manner
- Coordinate with supplier for material mobilization and demobilization
- Supervision of equipment Installation
- Testing and commissioning of LV Electrical equipment's
- Coordinate with consultant and client for witnessing of Installation and equipment testing

- Approval coordination for various teams as per site/client requirement
- Verification of load schedule & prepare As-built drawing
- Clearing Installation and Testing Related Check list and Raising Site note
- Prepare detailed daily, weekly and project completion reports documentation that's includes project progress, problems & recommendations
- Followed safety protocols for every site activity
- Snag follow up and prepare job completion report
- Report submittal

EDUCATION AND CERTIFICATION:

- Bachelor of Engineering in "Electrical & Electronics Engineering" – First Class
 - Anna University – Chennai (India).
 - Duration: June 2016 – April 2019.
- Diploma in "Electrical & Electronics Engineering"-First class with Distinction
 - Directorate of Technical Education-Chennai (India)
 - Duration: May2013-April 2016.

SCAN FOR DOCUMENTS

SOFT SKILLS:

- Collaboration and Communication skill
- Time management, Adaaptability, Negotiation skills

SOFTWARE SKILLS:

- Fluency Microsoft office (Word, Excel, PowerPoint)
- Revit MEP
- E-CAD

TESTING AND INJECTION DEVICES:

- High Voltage Kit - VLF
- Primary Injection - (Programma – ODEN)
- Secondary Injection - Freja 300
- ISA T1000, Sverker
- CT Analyzer - Omicron
- Power Quality Analyzer – Chauvin Arnoux
- Insulation Resistance Tester – Megger, Hioki
- Micro Ohm meter MOM600A
- Digital Low Resistance meter - Megger
- Multifunction Meter – Fluke

PERSONAL INFORMATION:

- Passport Details : P6525208, Validity Year 2027
- Language Known : English, Tamil, Hindi and Malayalam
- Nationality : Indian
- Marital Status : Single
- Current Location : Dubai
- Permanent Address : Flat no: 208, Al Anfal building, Al Muraqqabat, Deira, Dubai.

DECLARATION:

I hereby certify that, to the best of my knowledge and belief, the information above is accurate.

Regards,
