

MOHAMMED ZAHID

METALLURGY ENGINEER

📍 Saudia Arabia/☎+966558112906/ ☎+919701595340/ ✉ mohammedzahid1245@gmail.com

CONTACT INFO:

📍 Dammam,
Saudia Arabia.

Phone 1: +966558112906

Phone 2: +919701595340

LinkedIn Id:

<https://www.linkedin.com/in/mohammed-zahid-21a781246>

STRENGTH:

- Strong attention to detail.
- Motivated.
- Hard Working.
- Result Oriented.
- Collaborative.
- Analytical mindset.

SKILLS:

Familiar with industrial standards such as ASTM, ISO and ASME.

Familiar with laboratory testing procedures such as metallurgy testing and corrosion testing etc.

PROFESSIONAL PROFILE:

Dedicated metallurgist with two years of hands-on experience in material analysis. Proficient in conducting metallurgical testing, mechanical testing, corrosion testing, failure analysis, Replica metallography and interpreting results. Seeking opportunities to further expand expertise and contribute to the advancement of metallurgical practices in dynamic work environment.

WORK EXPERIENCE:

INDUSTRIAL SUPPORT SERVICES

2025 NOV – Present

Metallurgist

LOCATION: Dammam, KSA

DUTIES AND RESPONSIBILITIES:

- Coordinated metallurgical, corrosion, and material testing service enquiries, including microstructural analysis, coating thickness measurement, ferrite count, grain size analysis, and failure analysis.
- Supporting activities related to ASTM standards, corrosion & metallography standards, and test scope verification.
- Handling technical documentation related to metallurgy, corrosion testing, and laboratory services.
- Coordinating with clients, vendors, and internal teams to clarify service scope, testing requirements, and technical queries.
- Supported quotation and proposal preparation through technical input and scope coordination.
- Supported business development and market survey activities within the industrial and oil & gas sectors.

ARIES GROUP OF COMPANIES

2024 JAN – 2025 SEP

Metallurgist

LOCATION: Abu Dhabi, UAE

DUTIES AND RESPONSIBILITIES:

- Perform comprehensive metallurgical evaluations, including sample preparation and microstructure analysis such as ferrite content, grain size and inclusion rating, ensuring compliance with ADNOC specifications and industry standards.

PASSPORT DETAILS:

- Pass Port No:
W8101177
- Place of Issue:
Visakhapatnam.
- Expiry Date:22-01-
2033.

- Perform chemical composition analysis of metallic materials using spark optical emission spectrometry (OES) and X-ray fluorescence (XRF) for rapid, non-destructive elemental analysis and material verification.
- Execute a range of mechanical and material tests including tensile testing, bend testing, peel testing, hardness testing and Surface Roughness.
- Conduct corrosion testing and interpret results, including pitting corrosion (ASTM G48, G28), intergranular corrosion (ASTM A262 Practices A, B, C, and E) and detrimental phase analysis and corrosion (ASTM A923 Parts A, B and C).
- Conducted Hydrogen-Induced Cracking (HIC) and Sulfide Stress Cracking (SSC) tests in accordance with NACE TM0284 and TM0177 and Carried out CTOD (Crack Tip Opening Displacement) and K_{IC} (Fracture Toughness) testing in accordance with ASTM E1290, ASTM E1820 and ASTM E399 standards at both ambient and low temperatures, performed specifically for ADNOC projects, ensuring compliance with ADNOC specifications and acceptance criteria.
- Conducted comprehensive failure analysis on a wide range of components—including marine engine parts, oil and gas drilling tools, boiler tubes, pipelines and critical fasteners—using metallurgical and mechanical testing techniques to identify root causes and deliver actionable recommendations.
- Perform and evaluate studies using Scanning Electron Microscope (SEM) coupled with Energy Dispersive X-ray Spectroscopy (EDS) for microstructural and compositional analysis.
- Carry out in-situ Replica Metallography on critical components such as boiler tubes, turbine blades, welded pipelines and tanks followed by evaluation and reporting of microstructural conditions and potential degradation.
- Responsible for conducting testing and preparing documentation within the ENAS scope for metallurgical Laboratory testing, operating within an ISO 17025 Accredited Laboratory.
- Collaborating with Third-party Auditors or Surveyors to oversee the witnessing process activities, encompassing chemical, mechanical, metallurgical and corrosion testing.

EDUCATIONAL QUALIFICATION:

- Passed the bachelor's degree in Metallurgy engineering from Andhra University with FIRST CLASS in 2023.
- Passed the Board of Intermediate from Sri Chaitanya College with FIRST CLASS in 2019.

- Passed the Matriculation from Maris Stella School with FIRST CLASS in 2017.

PERSONAL DETAILS:

Father's Name : Mohammed Naseeruddin
Sex : Male
Marital Status : Unmarried
Citizenship : Indian
Languages Known : English, Urdu, Hindi & Telugu

DECLARATION:

I hereby declare that the above mentioned particulars are true to the best of my knowledge and belief.

I, hope you will consider my C.V **favorable** and call me for an interview with the delegates and prove my worthiness and capabilities. I shall be ever grateful to you at all the time.

Date:

Place: Saudia Arabia
