

Mudabbir Mushtaq

 **Home:** B-3/226 Akhtar Colony, Karachi, Pakistan

 **Email:** mudabbir.mushtaq@yahoo.com

 **Phone:** (+92) 3092958769

Date of birth: 18/05/1987 **Nationality:** Pakistani

ABOUT ME

I have done my Masters in engineering in the Electrical branch & Bachelors in Electronics Engineering from Hamdard University with excellent knowledge about the subject, able to do multitasking, able to handle a team and have excellent communication skills. I am seeking a challenging job that would synergize my skills and experience with the objectives of the organization.

EDUCATION AND TRAINING

[15/02/2015 – 15/06/2017] **Master of Engineering, Electrical, Power System**

Hamdard University

Address: Karachi, Pakistan

[18/09/2009 – 14/06/2014] **Bachelor of Engineering, Electronics**

Hamdard University

Address: Karachi, Pakistan

[15/08/2006 – 12/06/2009] **Diploma Of Associate Of Engineering, Electronics**

Aligarh Institute of Technology

Basic Control Technology

Pak Swiss Training Center

- PLC
- Pneumatics
- Electro Pneumatics
- Hydraulics

SKILLS

- Troubleshooting
- Problem-solving
- Operational analysis expert
- Ladder Logic
- Electrical measurements
- PCB layout design Power electronics
- HV, LV electrical engineering
- Technical report writing
- Circuit design
- Schematic drawing
- Renewable energy systems

Smart Toll Tax Collection System Using Automatic Vehicle Number Recognition

Smart Toll Tax Collection System Using Automatic Vehicle Number Recognition is to automate the toll collection and to facilitate the toll collecting authorities. The system detects the vehicle and then captures the image of the front view of the vehicle. Vehicle number plate is localized & characters are segmented. The system is designed for grayscale images so it detects the number plate regardless of its color. The system uses a camera to take the image of the front view of the vehicle, and then image- processing software such as MATLAB analyzes images, extracts the plate information & gives the vehicle license plate number in string format.

Work Experience:

Project Engineer (15-03-2023 – 15-09-2023)

Excellence Engineering

- Inspect and advised optimization on various manufacturing process at the Precision Engineering Complex Karachi.
- Provides engineering/technical guidance in the identification, analysis and resolution of problems.
- Worked as a member of a project team in a dynamic environment to fulfill results, sharing relevant knowledge, analysis, and recommendations with team members.
- Supervise all inspection function and lead teams for routine and special tasks.
