

Muhammad Owais Arshad

Metallurgical and Materials Engineer

IQAMA: Transferable
Country: Pakistan, Lahore.
Current: KSA, Dammam.
Contact: +966551776343
Email: owaisarshadd@gmail.com

CAREER OBJECTIVE:

"Motivated Metallurgical and Materials Engineer with a solid background in materials science, testing techniques, and process optimization. Looking to apply expertise in material analysis, quality control, and production improvement to contribute to innovative engineering solutions and operational excellence in a dynamic organization."

PROFESSIONAL WORK EXPERIENCE:

Organization: Mughal Steel (Steel products manufacturing company)

Tenure: Oct 2024 – Apr 2025

Designation: Production and Quality Control Engineer

Job description:

- Operated and monitoring induction furnaces for steel melting, ensuring adherence to process parameters.
- Analyzed furnace operations to identify opportunities for increasing efficiency and reducing energy consumptions.
- Implemented improvements in melting techniques, material and temperature control for quality enhancement.
- Collaborated with the quality control team to analyze test results and adjust processes as needed to maintain consistent quality steel.
- Working closely with production team to meet the production targets.
- Collaborated with the quality control team to analyze test results, including NDT findings on steel billets, and adjusted processes as needed to maintain consistent high-quality steel production.

Organization: Excel Engineering PVT LTD (Automotive parts manufacturing company)

Tenure: Jul 2023 – Oct 2024

Designation: Production and Quality Control Engineer

Job description:

- Operated a Cupola and an induction Furnace for melting of cast Iron.
 - Prepared reports on material consumed and requisition it as per our requirement.
 - Played a crucial role in upholding the established Quality grades of components, guaranteeing their reliability and performance.
 - Used NDT techniques for analyzing the defects and ensuring the quality of product.
-

- Conducted metallography and Mechanical testing (UTS & hardness) for ensuring better quality.
- Looked after Molding line, operations and conducted rigorous testing procedures for green sand properties e.g. Green strength, moisture content, mould hardness and shatter Index.
- Collaborated effectively across departments to identify bottlenecks, contributing to a significant reduction in casting rejection rates.

Organization: KSB Pumps company LTD (Pumps, system and control valve manufacturing company)
Tenure: Jul-2022 – Aug-2022
Designation: Internee Metallurgical Engineer

Job description:

- Gained hands-on experience in Sand casting, Charge calculation and both hand & machine molding techniques.
 - Conducted Mechanical testing, including Impact tests and hardness assessments.
 - Proficiently performed sand testing including Permeability, Sand strength test, Moisture test.
 - Acquired practical knowledge in heat treatments, and welding processes.
 - Assisted in quality control procedures to ensure the highest product standards during the internship.
-

EDUCATION:

<u>DEGREE/CERTIFICATION</u>	<u>EXAMINING BODY:</u>	<u>YEAR</u>
Bachelor of Metallurgy & Materials Engineering	University of the Punjab, Lahore	2023

SKILLS:

- NDT (UT, RTFI, MPI, DPT)
- Mechanical testing
- Metallography
- Heat treatment
- Casting
- MS Office (Word, Excel, PowerPoint)
- Written & Verbal Communication
- Problem Solving

CERTIFICATION:

- ASNT NDT LEVEL II
 - UT
 - DPT
 - MPI
 - RTFI
- Oracle Primavera p6 professional (4hours)
