

NIRTISHKUMAR V

METALLURGICAL QUALITY ENGINEER

31,Agraharam st, P.N Palayam,Salem | + 91 8825959249 | nirtishkumarvm2024@gmail.com

PROFILE SUMMARY

Detail-oriented Metallurgical Quality Engineer with experience in material testing, failure analysis, and process quality control across metals . Skilled in root cause analysis, and compliance with ASTM, ISO, and customer standards. Proven ability to reduce defects, improve product reliability, and support continuous improvement initiatives through data-driven quality systems.

EXPERIENCE

BrakesIndia Private Limited , Sholinghur

Quality Engineer| JUN 2024 – Present

- Quality Assurance:** professional with experience in ensuring material compliance through inspection, testing, and process audits. Skilled in metallurgical analysis, non-conformance management, and implementation of quality standards such as ISO, ASTM, and customer specifications. Strong continuous improvement to maintain product reliability and customer satisfaction.
- Quality Control :** with expertise in metallography, mechanical testing, chemical analysis, and heat treatment verification. Experienced in-process and final inspections, non-conformance handling, and root cause analysis. Adept at working closely with production teams to maintain material integrity and reduce defects.
- Root cause analysis:** Using quality control tools Six sigma , 8-D method to analysis the problem from the inhouse and the customer end to give corrective and preventive actions.
- New Product Development:** working in new materials development of ADI and other components to meet the Mechanical and Metallurgical properties of customer requirements under the ASTM ,ISO and the customer standards.
- Data And Documentation :** collecting, organizing, validating, and presenting metallurgical test and process data in a way that's traceable, auditable, and useful for decisions.

EDUCATION

B.E Metallurgical Engineering

Government College Of Engineering ,Salem, 2024

Diploma In Metallurgy

Sakthi Polytechnic College, Erode, 2021

SKILLS

Technical Skills

- Knowledge on Foundry technology
- Destructive and Non Destructive Testing
- Heat treatment
- Metallography

Soft Skills

- Data analysis
- Team Work
- MS Office
- Time Management

ACHIEVEMENT:

- Participate in Kaizen competition conducted by Brakes India Private Limited and won 3 rd prize.
 - Participate in woodr Technical competition conducted by PSG College of technology and won 2 nd prize.
 - Participate in Quiz competition conducted by Sakthi polytechnic college.
-

Declaration:

I here by declare that the. Above all information true to the best of my Knowledge and belief.
