

# MUHAMMAD MAAZ HUSSAIN

Metallurgy & Materials Engineer

+92 3300288603 | [maazshaikh1010@gmail.com](mailto:maazshaikh1010@gmail.com) |

LinkedIn: <https://www.linkedin.com/in/muhammadmaazhussain1010>

## Professional Summary

Detail-oriented Metallurgy and Materials Engineering undergraduate with hands-on experience in metal processing, heat treatment, corrosion analysis, and material testing. Proven ability to apply engineering principles to real-world industrial settings. Strong foundation in biomaterials and sustainable material development. Committed to improving material performance, durability, and safety.

## EDUCATION

Dawood University of Engineering & Technology — Karachi, Pakistan **October 2021 – June 2025 (Expected)**  
B.E. in Metallurgy & Materials Engineering — CGPA: 3.3

## PROJECT (FYDP)

Biomaterial-Based Antibacterial and Antifungal Patch for Burn Wound Healing **September 2024 – June 2025**

- Designed a biocompatible wound patch using fish skin collagen, silver nanoparticles, aloe vera gel, papaya leaf extract, and alum water.
- Focused on optimizing material composition for antimicrobial efficiency and tissue regeneration.
- Developed a cost-effective and sustainable solution for biomedical applications.

## Engineering Experience

Engineering Intern – **Karachi Shipyard & Engineering Works (KS&EW)** **Aug 2023 – Sep 2023**  
Karachi, Pakistan

- Worked on various metallurgical processes from scrap melting to casting.
- Observed furnace operations and steel refining techniques.
- Finding defects and prevent it by quality control & non-destructive testing.
- gain experience in inspection of RT, UT, MPI, DPT at Gun board and submarine construction.

## Technical Skills

- Material Selection & Processing
- Corrosion Prevention & Analysis
- Heat Treatment Techniques
- Metal Forming & Casting
- Metallurgical Testing & Failure Analysis
- Biomaterials Development
- Non-destructive testing
- Laboratory Equipment Handling.

## Certifications:

- Product Management
- 38 days long world cultural festival at Art Council Pakistan
- 1 day workshop on “Non-destructive Testing” by ASM Duet with PEF-DSC.
- 1 day seminar on “Nanomaterials” and workshop on “Corrosion And Prevention”
- 1 day Seminar on “Process Safety Management” by IISE DUET .

## Software Proficiency

- MS Office (Word, Excel, PowerPoint), Canvas, Origin .

**Soft Skills** - Analytical Thinking, Communication & Team Collaboration, Time Management, Attention to Detail, Technical Reporting
