Professional Profile

Results-driven Mechanical Engineer with extensive experience as a Sales Manager and Business Development Manager in the oil & gas and rotating equipment industries. Proven track record in driving revenue growth, building strategic customer relationships, and expanding market share across Saudi Arabia and the GCC.

Skilled in developing technical-commercial proposals, negotiating high-value contracts, and delivering tailored solutions in compressors and pumps. Recognized for bridging engineering expertise with business acumen to create value-driven strategies, exceed sales targets, and establish long-term partnerships with key clients such as Aramco, SABIC, Maaden, SWCC, SEC, and major EPCs.

Education & Qualifications

BSc Mechanical Engineering Technology
College of Technology at Riyadh
2010 | **4.20/5.0 GPA**

Association Diploma in Mechanical Technology
College of Technology at Dammam
2007 | **3.97/5.0 GPA**

Core Competencies

Account Management

Excellent account management skills with proven ability to manage existing client bases and develop new business relationships.

Strategic Negotiation

Strong negotiation skills with experience contacting and communicating with high-end decision makers.

Product Launch

Proven experience in launching new products and successful track record in new business development.

Leadership Excellence: Fast learner and independent professional with strong leadership and critical thinking skills. Ability to tactfully handle complaints and settle into any role while taking over management of existing client bases.
